Then up the Saguenay River Canyon, past Capes Trinity and Eternity and into the Laurentian Mountains.

No other trip presents more interesting and enjoyable experiences.

"THE Underwood Condensed Billing Type-writer which you installed for us, saved its cost in three months. We consider it the best investment we ever made."

That is the unsolicited statement of one large manufacturing concern. Hundreds of other firms have had the same experience.

The Underwood Biller writes the invoice, and makes the sales-book entry at one operation—there can be no discrepancy. The duplicate entries are *automatically* condensed—no waste space on sales sheet.

> There is practically no limit to the size of sales sheet. A series of columns, beyond the invoice ruling, provides for any classification of sales, departments, lines of goods, territories, etc.

A SYSTEM designed to meet your particular requirements must necessarily be a vital factor, and this service goes with the typewriter—included but not charged for.

Explanation of the Articles in the Calendar.

Standard times* are given in all columns headed Toronto, Quebec, and Winnipeg.

The times* of the Sun's Rising and Setting† are given for the upper limb, and are corrected for refraction for Toronto, Quebec and Winnipeg.

The standard times* both for the rising and setting of the Moon's centre are given for every day for Toronto, Quebec and Winnipeg.

The column, Sun on Meridian, gives the time that a watch keeping local mean time should show when the shadow of a sun dial is on the noon mark.

Moon's Age.—This column shows to the nearest tenth of a day the Moon's age at Toronto mean noon.

The column, Upper Transit of Pole Star, shows for every day the mean time* at which the Pole Star makes its upper transit across the meridian of longitude 4h. 46m. W. It passes the meridian twice on October 14th.

The time at which the lower transit of the Pole Star occurs may be found by adding 11h. 58m. 2s. to the time of the preceding upper transit.

The column, Sidereal Time, Sun on Meridian, shows for every day the Sidereal Time when the Sun's centre is on the meridian of longitude 4h. 46m. W. (71° 30′). For any other meridian interpolation of these quantities is necessary. For example, on July 7th, 1916, what is the sidereal time when the Sun's centre is on the 82nd meridian west longitude. Here the difference in longitude is 10°.5. The tabulated sidereal time on the 7th is 7h. 5m. 58s., and on the 8th, 7h. 10m. 5s., giving an increase of 247 secs. which, multiplied by 10°.5 and divided by 360, gives 7 secs. corr. to be added to 7h. 5m. 58 secs.

Greatest Elongation of the Pole Star.—This table gives the greatest azimuth of the Pole Star east or west from the meridian as observed at a place in latitude 42°, with the corresponding corrections, which are additive, for latitudes up to 65°. (See pages 31 and 32.)

From the time of the upper transit of the Pole Star may be found the time of its greatest western or eastern elongation, by adding or subtracting the constants given in the annexed Table. These constants are calculated for declination 88° 51′ 46″. The maximum error in the use of this Table will not exceed 5 secs. in the higher latitudes, and less for the lower latitudes.

Moon's Phases.—This Table gives the times (standard 75th meridian)* when the Moon passes the geocentric longitudes of 0°, 90°, 180°, and 270° east of the sun. It gives also the times of her greatest and least distance from the earth.

---

* In the present Almanac the hours are numbered from 0 (midnight) to 23.

† Although these times are calculated for Toronto, Quebec and Winnipeg only, the standard times at other places not differing much from them in latitude may be obtained with sufficient accuracy for ordinary purposes by adding four minutes for every degree west, and subtracting four minutes for every degree east of these places.

STAR TABLE.

From the times of the upper transit of the Pole Star may be derived, with the aid of the following Table, the approximate times of the culmination, and of the rising and setting of the principal fixed stars, as seen from the parallel of 45° north latitude.

To ascertain when any star found in the following Table will be on the meridian, *add* the number in the left-hand column of figures to the meridian transit of the pole star given in the calendar, and from the result *subtract* the constant quantity 1h. 26m.

To find the time of *rising* of the star, *subtract* the number opposite to it in the right-hand column of figures from the time of its meridian passage. For the *setting, add* the same number to the time of its meridian passage. Those stars marked (....) revolve in a circle of perpetual apparition, and do not rise or set at places in and to the north of latitude 45°.

Example.—Find the times of culmination, rising and setting of α Tauri (*Aldebaran*), January 2nd, 1916.

ECLIPSES DURING 1916.

(F. L. Blake.)

In the year 1916 there will be five eclipses, three of the Sun, and two of the Moon.

I.—*A Partial Eclipse of the Moon*, 1916, January 20th, visible generally over America.

The Moon enters the penumbra 1h. 5m. a.m.
" enters the shadow 2h. 55m. "
" middle of eclipse 3h. 40m. "
" leaves the shadow 4h. 24m. "
" leaves the penumbra 6h. 14m. "
(Eastern Standard Time)

Magnitude of the eclipse 0.137 (Moon's diameter = 1.0).

II.—*A Total Eclipse of the Sun*, 1916, February 3rd, visible as a partial eclipse in North America. The path of totality begins in the Pacific Ocean in longitude 121° W. and N. latitude 7° 21′. It then sweeps eastward striking the South American continent south of Panama, passing through Colombia and the N.W. part of Venezuela, thence N.E. across the Atlantic, ending in longitude 9° 50′ W. latitude 49° 24′ N. before reaching the S.W. coast of England. At Toronto the eclipse begins 10h. 20m. a.m. Middle of eclipse, 11h. 17m. End of eclipse, 15 minutes past noon (Eastern Standard Time). The greatest obscuration being 0.291. At Halifax the eclipse begins 11h. 38m. a.m. Middle of eclipse, 0h. 46m. p.m. ending 1h. 53m. p m. (Atlantic Time). The greatest obscuration being 0.456. At Winnipeg the eclipse begins 9h. 19m. a.m., middle 9h. 56m., and ending 10h. 33m. a.m. (Central Time). The greatest obscuration being 0.132 of the Sun's diameter.

III.—*A Partial Eclipse of the Moon*, 1916, July 14th and 15th, visible generally in North America.

Moon enters penumbra, 9h. 18m. p.m. 14th
Moon enters shadow, 10h. 19m. p.m. 14th
Middle of eclipse, 11h. 46m. p.m. 14th
Moon leaves shadow, 1h. 13m. a.m. 15th
Moon leaves penumbra, 2h. 14m. a.m. 15th
(Eastern Standard Time)

Magnitude of the eclipse 0.800 (Moon's diameter = 1.0).

The correction for an increase of altitude of one inch in the barometer or for a decrease of one degree in the thermometer, is to be added to the *tabular refraction*, but when the barometer is lower than 30 inches, or the thermometer higher than 47°, the corrections become *subtractive*. When great accuracy is required, 0·003 inch should be deducted from the observed height of the barometer for each degree that the thermometer near it is above 50°, and the same quantity added for an equal decrease.

VELOCITY OF LIGHT.

Fizeau determined the velocity of light by reflecting a spot of light from a mirror at one station to a second mirror at a distant station. The light was brought to a focus at the required points by means of lenses. A toothed-wheel whose revolutions could be registered was so placed that its teeth revolved in the focus, and the spot of light could be seen between two teeth. It was possible to turn the wheel so quickly that the spot of light was stopped by a tooth coming up before it could pass through. The distance between the stations being known, and the rate at which the wheel turned, the velocity of light could be found. Foucault's method consisted of a rapidly rotating mirror, on which a beam of light was admitted through a slit. It was then reflected on to a lens, after which it was brought to a focus on a concave mirror at some distance. It was possible to turn the mirror so quickly that it moved through a small angle before the spot of light returned. The distance between the mirrors, the rate of rotation of the mirror, and the amount of displacement being known, the velocity of light could be estimated. The velocity of light and the aberration angle being known, the sun's distance can be found.

(1) The ratio of the velocity of light and the earth in its orbit as determined by observation is as 10,089 : 1.

(2) The earth completes its orbit in 365¼ days.

(3) Light would do the same journey in $\frac{365\frac{1}{4}}{10,089}$ days.

(4) Knowing the time it would take to complete the revolution we can find how long it would take to cross the diameter, and therefore the radius.

(5) We multiply the number of seconds taken by light to cross the radius of the earth's orbit by the velocity of light, and it gives us 92,628,000 miles as the sun's distance.

THE SUN.

"What we ordinarily call the sun," wrote the late Mr. Ranyard, is only the bright spherical nucleus of a nebulous body." But it is only when the interposing moon during a total eclipse cuts off the dazzling rays of the nucleus that we see directly anything of its nebular surroundings. No sooner has the last glint of sunshine vanished than the corona starts into view, encompassing the black lunar globe with a sort of "glory" of silvery streamers. The awe and wonder of the sight tend, for the moment, to supercede scientific curiosity, and they are enhanced by the perception, at the base of the corona, of the scarlet "chromosphere" fringing the moon's circumference, while the towering "prominences" that are usually seen to spring from it produce the startling effect of a conflagration.

A considerable mass of information regarding the solar prominences have of late been collected. The size of these formations is enormous. They vary in height from 10,000 to 100,000 miles; and ranges of them 450,000 miles in extent have been photographed during total eclipses. Starting from the photosphere which is the visible surface of the sun we meet first an envelope producing the *general* absorption, by which sunlight is enfeebled and reddened. Next comes the reversing layer composed of mixed incandescent vapours, giving rise, by their *selective* absorption, to the Fraunhofer lines. These two layers lie close to the photosphere and are apparently indifferent to its agitations. They are overspread by the chromosphere and prominences, while above and beyond shines the mysterious corona. Another solar appendage remains to be noticed the Zodiacal Light.

TABLES OF WEIGHTS AND MEASURES.

Avoirdupois Weight.

16 drams = 1 ounce
16 ounces = 1 pound
7,000 grains = 1 “
14 pounds = 1 stone
100 “ = 1 hundredweight or cental
196 “ = 1 barrel flour
200 “ = 1 “ pork
280 “ = 1 “ salt
20 hundredweight = 1 ton

Dry Measure.

2 pints = 1 quart
4 quarts = 1 gallon
2 gallons = 1 peck
4 pecks = 1 bushel

Liquid Measure.

4 gills = 1 pint
2 pints = 1 quart
4 quarts = 1 gallon

A cubic foot of water weighs almost 1,000 oz., and contains almost 6¼ gallons.

The following Table gives the Legal Weight in Canada in Pounds of a Bushel of various articles.

Wheat, beans, peas, clover seed, potatoes, beets, carrots, turnips = 60 ℔
Rye, Indian corn = 56 ℔
Barley, buckwheat, timothy seed = 48 ℔
Onions = 50 ℔
Oats = 34 ℔

Long or Linear Measure.

4 inches = 1 hand (for measuring horses)
12 inches = 1 foot
3 feet = 1 yard
2 yards = 1 fathom
5½ yards = 1 rod or pole
320 rods or 1,760 yards = 1 mile
22 yards = 1 chain (100 links)
220 yards = 1 furlong
8 furlongs = 1 mile

Surface, Square or Land Measure.

366 days = 1 leap-year
100 years = 1 century

The mean solar year is equal to 365 days, 5 hrs. 48 min. 46 sec., or nearly 365¼ days.]

Every year whose number is divisible by 4 is a leap year, unless the number of the year ends in two ciphers, in which case the number must be divisible by 400. Thus, 2000 and 2400 will be leap years, but 1900 was not a leap year.

Angular Measure.

60 seconds (″) = 1 minute, or 1′

(2) Whenever the Governor-in-Council deems it to be in the public interest to enquire into any conspiracy, combination, agreement or arrangement alleged to exist among manufacturers or dealers in any article of commerce to unduly promote the advantage of the manufacturers or dealers in such article at the expense of the consumers, the Governor-in-Council may commission or empower any judge of the Supreme Court, or Exchequer Court of Canada, or of any Superior Court or County Court in Canada, to enquire in a summary way into and report to the Governor-in-Council whether such conspiracy, combination, agreement or arrangement exists.

(3) The judge may compel the attendance of witnesses and examine them under oath and require the production of books and papers, and shall have such other necessary powers as are conferred upon him by the Governor-in-Council for the purpose of such enquiry.

(4) If the judge reports that such conspiracy, combination, agreement or arrangement exists in respect of such article, the Governor-in-Council may admit the article free of duty, or so reduce the duty thereon as to give to the public the benefit of reasonable competition in the article, if it appears to the Governor-in-Council that such disadvantage to the consumer is facilitated by the duties of Customs imposed on a like article.

CANADIAN TARIFF OF CUSTOMS

COMPILED AND REVISED BY O. H. COGSWELL, B.A., OTTAWA

NOTE—For the convenience of the public we have enlarged this edition of the Tariff by the insertion of a large number of items not classified in the official tariff. We have assigned the rates to the best of our information and judgment, and we believe they will be found fairly correct. We however, disclaim all responsibility should the rates assigned not be verified as correct by the rulings of the Department.

Where there are three rates of Duty given, the first is the British Preferential Tariff, the second is the Intermediate Tariff, and the third is the General Tariff. The rate of Duty is per cent. *ad valorum*, except when otherwise specified.

The Customs War Revenue Act of April 8th, 1915, provides that a War Tax of 5% Preferential or 7½% Intermediate or General be collected on each item in the Tariff except those designated as exempt.

* Items marked thus have the advantage of the Intermediate Tariff rates when the importation is from French Treaty countries, The Netherlands, or Belgium.

† Items marked thus have the advantage of the Intermediate Tariff rates when the importation is from French Treaty countries, The Netherlands, Belgium or Italy.

‡ Items marked thus have the British Preferential rate when the importation is from those colonies that come under the West Indian Trade Agreement Act of 1913.

Abbreviations, F.T. = French Treaty, Sp.T. = Special Tariff.

THE KING'S CIVIL LIST.

Immediately after the accession of His Majesty George V., there was passed in the Parliamentary session of 1910 the Civil List Act, an Act by which the charges on the consolidated fund for the maintenance of the King and his family are determined.

Until George III. came to the throne in 1760, the income of the sovereign was derived chiefly from Crown lands, from a variety of landed property in England and Wales, Scotland and Ireland, in which the sovereign had a life-interest, and from which he received the rents. In the feudal ages these lands constituted a princely patrimony. In later times this Crown property was greatly reduced by lavish grants to royal favorites. At the Restoration the income from Crown lands was ascertained by a committee of the House of Commons to amount to £217,900 a year, in addition to £4,000 from the Forest of Dean. By the time Charles II. had been on the throne three years he had by his lavish bestowal of the lands on favorites reduced the income to £100,000. William III., by his grants to favorites who had accompanied him from Holland, made further havoc with the Crown domains; so much so that at the accession of Queen Anne Parliament endeavored to save the remnant by an Act (1 Anne, c. 8) which prohibited alienation of Crown lands, and enacted stringent provisions in regard to the length of the term for which they might be leased and the rents reserved.

Since then, and especially since the accession of the late King Edward VII., the income from the Crown Lands has very greatly increased, until at the present time it is greater than the amount granted to the King and Royal Family in the Civil List.

Queen Anne, George I. and George II. derived the larger part of their income from their life-interest in the Crown property, but when George III. came to the throne he surrendered his life-interest in the Crown lands. It was turned over to the nation in return for a fixed Civil List of £800,000, subsequently increased to £900,000. George IV., William IV., Queen Victoria and Edward VII., on their accessions, surrendered their life-interest in the Crown lands in return for a Civil List. The same course was taken by George V. when he came to the throne; and on June 15th, 1910, a committee of the House of Commons was appointed to recommend the new Civil List. It reported on the 6th of July, 1910, and its recommendations were embodied in an Act (1 George V., c. 5), which was passed through all its stages in the House of Lords on August 2nd, 1910. By this Act the King's Civil List was fixed at the yearly sum of £470,000, which was the same amount as that granted to King Edward VII.

CLASSES OF EXPENDITURE.	SUM APPROPRIATED.
I. Their Majesties' Privy Purse	£110,000
II. Salaries of His Majesty's household and retired allowances	125,800
III. Expenses of His Majesty's household	193,000
IV. Works	20,000
V. Royal bounty, alms and special services	13,200
VI. Unappropriated	8,000
Total	£470,000

Her Majesty Queen Alexandra in accordance with the Civil List Act passed at the accession of Edward VII. (1 Edward VII., c. 4), enjoys an annuity of £70,000, and a similar provision is made in the Civil List Act of 1910 for Queen Mary in case she survives the King.

The late King Edward's daughters, Princess Louise (Dowager Duchess of Fife), Princess Victoria and Princess Maud (Crown Princess of Denmark), receive an annual allowance of £18,000 during their joint lives, which will be reduced at the death of each of the said princesses by £6,000.

At the death of Edward VII. the provision for the Royal Family amounted in all to £576,000, being £470,000 for the King's Civil List, and £106,000 in respect of allowances to other members of the Royal Family. This amount is somewhat increased by the allowance of £70,000 made to Queen Alexandra. As the Prince of Wales is entitled to the revenues of the Duchy of Cornwall, no special provision was made for him in the Civil List Act of 1910, but it was provided that, in the event of his marrying, an allowance of £10,000 a year should be made to the Princess of Wales, to be increased to £30,000 should she survive his Royal Highness. Each of King George's sons is to receive an annuity of £10,000 on coming of age, to be increased to £15,000 on his marrying. The allowance to daughters is to be £6,000 a year. No provision is made in the Act for children of younger members of the Royal Family.

The annuities to the Royal Family after the resettlement at the accession of George V. stand thus:—

His Majesty (Civil List)	£470,000
Queen Alexandra	70,000
Pensions transferred to Consolidated Fund	18,000
Princesses Louise, Victoria and Maud	18,000
Princess Christian of Schleswig-Holstein	6,000
Princess Louise, Duchess of Argyll	6,000
Duke of Connaught	25,000
Princess Beatrice (of Battenburg)	6,000
Duchess of Mecklinburg-Strelitz	3,000
Duchess of Edinburgh	6,000
Duchess of Albany	6,000
Total	£634,000

The revenues of the Duchies of Cornwall and Lancaster are outside the Civil List arrangement. Those of Cornwall, valued at £60,000 a year, are vested in the eldest son of the reigning sovereign, who becomes by birth the Duke of Cornwall, by virtue of a patent of Edward III. in 1337. The Duchy of Lancaster was the private patrimony of Henry Bolingbroke, son of John of Gaunt. It is separate from the other possessions of the Crown in order and government, but united to it in point of inheritance. It also brings in a revenue of £60,000 a year.

It is a Maltese Cross, made of gun metal, with a Royal Crown in the centre surmounted by a lion and the words "For Valour" indented on a scroll below the Crown. The ribbon is red for the army and blue for the navy. A pension of £10 a year accompanies the decoration.

MILITIA AND DEFENCE OF CANADA

Previous to the confederation of the Provinces, the defence of this country was entirely in the hands of the Imperial Government, who for that purpose maintained troops in each Province, supported by various local volunteer militia corps. This volunteer militia had, when called upon, rendered most efficient service in times of trouble.

After Confederation the British Government gradually withdrew all the Imperial troops from this country, and at present none remain.

By the British North America Act the command in chief of all naval and military forces of and in Canada was vested in the Sovereign, and the control of the same was placed in the hands of the Dominion Parliament. A Department of Militia and Defence was at the same time established, the first Minister being Sir George E. Cartier, and the first Militia Act was passed in 1868, 31 Vic., chap. 40. The Act was subsequently amended in various ways, especially in 1904, when a new Militia Act was passed (ch. 23, 4 Ed. VII). By it the Militia of Canada is declared to consist of all the male inhabitants of Canada of the age of 18 years or upwards and under 60, not exempted or disqualified by law, this population being divided into four classes, as follows:

The first class comprises those aged 18 or upwards and under 30, being unmarried or widowers without children.

The second class comprises those between the ages of 30 and 45, being unmarried or widowers without children.

The third class comprises those between 18 and 45, being married, or widowers with children.

The fourth class comprises those between 45 and 60.

The following persons are exempt from enrolment and active service at any time: Members of the King's Privy Council for Canada, Judges, Members of the Executive Councils of Provinces, Deputy Ministers of the Federal and Provincial Governments, clergymen and ministers of all religious denominations, professors in colleges and teachers in religious orders, the wardens and officials of all penitentiaries and lunatic asylums, persons physically disabled, and any person being the only son of a widow and her only support. Certain other persons are exempt from service except in case of war.

The Active Militia, or any portion thereof, may be ordered to drill or train for a period of not more than 30 days in each year.

The Militia is divided into Active and Reserve Forces. The Active force is composed of men raised either by voluntary enlistment or by ballot, and the Reserve force consists, practically, of the whole of the efficient men not serving in the Active Militia of the time being.

The period of service, for the Active Militia, is three years; for the Reserve Militia, such as is prescribed.

RIFLE ASSOCIATIONS.

1. Their formation and government are laid down by regulations promulgated in Militia General Orders 88, dated June 1, 1903.

2. Are of two following classes:—

   (a) *Military*—consists of persons in the Active Militia, and are managed by officers of the respective units.

   (b) *Civilian*—consists of persons in the Reserve Militia, who, while members of any such club or association, are enrolled in such reserve. Are managed under such regulations as may from time to time be issued.

3. Rifle Associations organized under these regulations come under the control of the Department of Militia and Defence.

4. To form an association in a locality requires not less than forty men residing therein, and aged over sixteen years. They must be members of the Active Militia (for Military Associations); or subscribe to the oath of allegiance to His Majesty (for Civilian Associations).

5. A captain is appointed to every Civilian Association, who, with a committee of two members, manage the affairs of the association.

6. The annual subscription to be not less than $1 each member.

7. A member may resign on three months notice to the captain. The former must return all government property in his possession before the resignation can be accepted.

8. An association may be disbanded for grave irregularities or mismanagement.

9. A member may be expelled by a two-third vote of the association to which he belongs.

10. No man is allowed to belong to more than one association.

11. The Officer Commanding Division (or District) is charged with the organization, etc., after the necessary papers have been forwarded by him, are recommended at headquarters and approved by the Minister of Militia and Defence.

12. An association maintaining a membership of less than forty must disband.

13. In the event of a national emergency, any person who is or has been duly enrolled in any Rifle Association in Canada shall be deemed to be already enrolled in the Reserve Militia of the Dominion.

14. *Rifle.*—The arm used is the ·303 rifle, either of Government issue or of *bona fide* Government pattern, and bearing the Government viewer's mark.

15. Associations may be supplied with rifles for the use of members on the captain's requisition and on his furnishing a bond signed by three responsible members, for the safety, preservation, and safe return when required to do so, of all rifles issued to them. (*Note.*—Each rifle is valued at $25).

16. Under the conditions of the bond, ten rifles may be issued to each association of forty members, and five additional rifles for every twenty additional members, until the stock of rifles available for this purpose be exhausted.

17. *Ammunition.*—200 rounds a year to each member of a Military Association; 100 rounds to each member of a Civilian Association; free issue.

Extra ammunition as follows:—

Service Ammunition per 1,000	$15.00
Miniature Cartridges, per 1,000	3.00

Regulations, published in pamphlet form, give full details and information as to organizing, etc., rifle associations; officers' duties, returns, also standard rules, instructions as to targets and marking, care of arms, rifle ranges, etc. (issued by Dept. of Militia and Defence).

When demanding ammunition on repayment, the amount should be deposited in a Canadian chartered bank, to the credit of the Receiver General, and the Deposit Receipt annexed to the requisition.

CANADIAN TEAMS TO WIMBLEDON AND BISLEY AND OFFICERS THEREOF FROM 1872 TO 1914.

NOTE.—Owing to European War, no D. R. A. matches took place in 1914, nor in 1915, and therefore no list can be given of the team to shoot at Bisley, in 1916, if latter meet takes place.

Canada has always been represented by a team of its best shots at the annual Prize Meeting of the National Rifle Association of England. The first matches were held in 1872, at Wimbledon, but since 1890 they take place at Bisley. The most coveted of all prizes, the Queen's—now the King's prize (£250), was won four times by a Canadian: Pte. T. H. Hayhurst, 13th Regt., Hamilton, Ont., in 1895, Pte. J. S. Perry, 6th Regt., D.C.O.R., Vancouver, B.C., in 1904, Pte. W. J. Clifford, 10th Regt. (Royal Grenadiers), Toronto, Ont., in 1911, who also won the Prince of Wales' prize; Pte. W. A. Hawkins, 48th Regt., Toronto, Ont., in 1913. Many other important prizes have also been captured by Canadians. The Kolopore Cup, contested for by the Mother Country and the Colonies was won nine times by the Canadians: in 1872, '75, '81, '84, '89, '96, '05, '06, and '09. Eight men compose the team.

Canada sends to Bisley twenty representatives to take part in the various matches open to them, and these men are selected by competition held at Ottawa under the Dominion of Canada Rifle Association.

THE CANADIAN RIFLE LEAGUE.

(HEADQUARTERS, OTTAWA, ONT.)

In 1893 the Canadian Rifle League was formed, with Headquarters at Toronto, the moving spirit and chief organizer being Lieut. W. R. Pringle, of the 10th Regiment, Royal Grenadiers. Rifle associations from all over the Dominion affiliated, and a series of simultaneous matches on given dates was inaugurated. In 1895, the Honorable the Minister of Militia and Defence granted free ammunition to the League teams, and with one exception this has heen the rule since.

Four matches are held annually over King's ranges (200, 500.and 600 yards), and prizes given to the leading teams. Marksmen's certificates, signed by the Minister of Militia and Defence, and the Chief of the General Staff, are issued as follows:

For an average of 94 points out of a possible 105, a first-class special certificate; for 90 points, a first-class certificate; for 80 points, a second-class certificate.

The competitions are divided into four series as follows:

The first (military) for teams of city corps of the Active Militia; the second (military) for units other than city corps; the third, or civilian series, for teams of Civilian Rifle Associations; the fourth (sections "A" and "B"), Cadet Corps. The entrance fee per team is $10. Fees for additional teams from the same organization, $5 each. Organizations bringing five new men to the Dominion of Canada Rifle Association Meeting get free entry for one team to the C.M.R. League competitions for the following year.

By Militia Order of June 10, 1903, the C.R. League was placed under the supervision of the Militia Department, Ottawa.

POSTAL INFORMATION

For List of Officials of Post Office Department, see Dominion Government.

War Tax on Letters and Post Cards.

A war tax of one cent each, in addition to postage, is imposed on all letters mailed in Canada, except those which are subject to the postage rate of 5 cents for the first ounce and 3 cents for each additional ounce or fraction of an ounce, and on all post cards bearing written communications mailed in Canada addressed to places in Canada, the United States or Mexico. Letters and post cards subject to war tax on which the tax is not prepaid will not be forwarded.

Letter Rates, &c.

Canada.—Letters posted in Canada, addressed to any place within the Dominion, 2 cents per oz. If unpaid, such letters cannot be forwarded, but will be sent to the Dead Letter Office. If partially prepaid, the letter will be forwarded to its destination and double the deficiency charged on delivery. Letters mailed at any office for delivery at or from the same office are charged 1 cent per oz., and must be at least partially prepaid; otherwise they are sent to the Dead Letter Office. All postage must be prepaid by postage stamps.

Post Cards.—From any place in Canada to any place in Canada or to the United States or Mexico, 1 cent each. British and Foreign, 2 cents each.

Private Post Cards.—Besides the Post Cards issued by the Post Office Department, pictorial and other cards of private manufacture duly prepaid by means of postage stamps may be mailed in Canada for delivery within Canada or for transmission to other countries. Private Post Cards for delivery in Canada, U. S. and Mexico, must not exceed a size of 6 inches in length by 3⅝ inches in width, nor be less than 3¼ inches in length by 2¼ inches in width. Cards for other countries must not exceed 5½ inches in length by 3½ inches in width, nor be less than 4 inches in length by 3 inches in width. Cards of dimensions not conforming to these regulations are treated as insufficiently paid letters if they bear written communications.

The right-hand half of the face of the ordinary official post cards and of private post cards is to be strictly reserved for the address, postal directions and postage stamps. The left-hand half of the face and the entire back of the card are available for the purposes of the sender, subject to restrictions as to attaching articles to post cards.

Cards bearing the title "Post Card" or its equivalent are admitted to the mails at the rate for printed matter provided they conform to the general regulations respecting printed papers.

United Kingdom, Egypt, and British Possessions and Protectorates.—Postage on Letters, 2 cts. per oz.

Foreign Countries, except United States and Mexico.—Postage on Letters, 5 cents for a letter weighing one ounce or less. For letters weighing over one ounce 5 cts. for the first ounce and 3 cts. for each subsequent ounce or fraction of an ounce.

United States and Mexico—The rate on letters to the United States and Mexico is the same as in Canada, and at least one rate (2 cents) must be prepaid.

Double the deficient postage is charged on all unpaid or insufficiently paid letters for other countries except the United States and Mexico. Only the deficient postage is collected on over-weight letters for the U. S. and Mexico which are prepaid one rate.

Express or Special Delivery Letters.—Arrangements have been made for the delivery by special messenger daily, except Sunday, between 7 a.m. and 10 p.m., of letters bearing, in addition to the usual prepayment of two cents an ounce, a "Special Delivery" stamp of the value of 10 cts. or ordinary postage stamps of the value of 10 cts., and the words "Special Delivery" legibly written on the upper left hand corner of the envelope, addressed to the following cities in Canada: In Ontario—Toronto, Hamilton, London, Brantford, Kingston, Peterboro', Guelph, Stratford, Windsor, Chatham, Berlin, St. Catharines, Sarnia, St. Thomas, Fort William, Port Arthur, Owen Sound, Niagara Falls, Sault Ste. Marie, Galt, Brockville, Belleville and Ottawa; in Quebec—Montreal, Sherbrooke, St. Hyacinthe, Trois Rivières, Hull and Quebec; in New Brunswick—St. John, Moncton and Fredericton; in Nova Scotia—Halifax, Amherst and Sydney; in Manitoba—Winnipeg and Brandon; in Saskatchewan—Regina, Saskatoon, and Moose Jaw; in Alberta—Calgary, Lethbridge, Strathcona, Medicine Hat and Edmonton; in British Columbia—Victoria, New Westminster and Vancouver; in P. E. Island—Charlottetown. The "Special Delivery" stamp of the value of ten cents may be obtained at any Money Order post office.

Fully paid registered letters bearing "Special Delivery" stamps or ordinary stamps of the value of 10 cts., in addition to the postage and registration fee and the words "Special Delivery," come under the operations of this scheme of special delivery.

International Reply Coupons.—Persons desiring to prepay replies to letters addressed to correspondents in almost all Postal Union Countries, can purchase at any Post Office in this Country coupons exchangeable for postage stamps of the value of 25 centimes (5 cents), at the price of 6 cents.

Registration.

Persons posting letters containing value should be careful to require them to be Registered, and to obtain from the Postmaster a certificate of receipt for Registration.

The charge for Registration in addition to the Postage is, on all classes of matter, five cents.

Both the Postage charge and Registration fee should, in all cases, be prepaid by stamp.

Registration is not an absolute guarantee against the miscarriage or loss of a letter; but a Registered Letter can be traced where an Unregistered Letter can not, and the posting and delivery or non-delivery can be proven.

The sender of a registered article for delivery in Canada or in any other Postal Union Country, can obtain an acknowledgment of its receipt by the addressee at a cost of 5 cents in addition to the ordinary postage and registration fees.

Indemnity for Registered Articles.

Domestic—(1) In case of the loss in the Postal Service of a registered article posted in Canada for delivery in Canada the addressee, or at the request of the addressee, the sender, is entitled to an indemnity, which in no case shall exceed twenty-five dollars, or the actual value of the lost registered article when the same is less than twenty-five dollars, provided no other compensation or reimbursement has been made therefor.

(2) The indemnity will be paid, provided the loss of the registered article is reported to the Department within one year of the date of posting, upon receipt of sworn statements of the persons concerned,—

(a) that according to the best of knowledge and belief the registered article has been lost in the mails.

(b) as regards the value of the contents of the lost registered article.

(c) as regards the ownership of the same.

(3) No indemnity is given for a registered article which has not been entirely lost in the mails.

British and Foreign.—Except in cases beyond control (*e.g.*, tempest, shipwreck, earthquake, and war), the Postal Administrations of all countries and Colonies included in the Postal Union undertake to pay an indemnity of 50 francs ($10) when it is proved to their satisfaction that a letter or packet duly admitted to Registration has been entirely lost whilst in their custody.

1. Newspapers and Periodicals.

Newspapers and periodicals printed and published in Canada and posted from the office of publication.

The general postage rate on newspapers and periodicals *printed and published in Canada* not less frequently than once a month, mailed by the publishers at the post office in the place where they are published, and addressed to regular subscribers or to newsdealers (not resident in the place of publication) in Canada, Mexico, the United Kingdom, and (provided they can be forwarded by direct mail steamers or *via* England) in the following British Possessions:—Barbados, Bermuda, British Guiana, British North Borneo, Ceylon, Cyprus, Falkland Islands, Fiji, Gambia, Gibraltar, Hong Kong, Jamaica, Leeward Islands, Malta, Mauritius, New Zealand, Northern Nigeria, Sarawak, Seychelles, Sierra Leone, Southern Nigeria, Trinidad and Tobago, Turk's Islands, Union of South Africa (comprising the Provinces of Cape of Good Hope, Natal, Orange Free State and Transvaal), Zanzibar, and Newfoundland, is a bulk rate of ¼ cent per pound. The following exception, however, is to be noted:—Newspapers and periodicals published not *more* frequently than once a week and not *less* frequently than once a month, are entitled to pass free to regular subscribers and newsdealers in Canada within a circular area of 80 miles in diameter, having as centre either the place of publication or any established Post Office not more than 40 miles distant therefrom, the choice of a centre within these limits resting with the publisher; and such newspapers and periodicals may also be delivered free to subscribers at the office at which they have been posted, except in cities where the letter carrier system is established. In the latter case ordinary transient newspaper rates are charged.

Copies of legitimate daily newspapers can be mailed by the publishers in Canada to regular subscribers and newsdealers in the United States on prepayment in cash at the rate of 1 cent per pound or fraction thereof. Other newspapers and periodicals sent to the United States either by publishers or other individuals are subject to the rate of 1 cent per 4 ounces.

The postage on *bona fide* specimen newspapers, and on papers and periodicals published less frequently than once a month, is 1 cent per lb.

2. British and Foreign Newspapers.

British and Foreign newspapers and periodicals and Canadian newspapers and periodicals posted by newsdealers to regular subscribers.

British and foreign publications as well as Canadian publications, if authorized by the Department may be posted by newsdealers in Canada to subscribers in Canada or Mexico at the rate of 1 cent per lb. They cannot however be posted at that rate for local delivery at places where there is a free letter carrier service. Newsdealers may also post recognized Canadian newspapers and periodicals to regular subscribers in the United Kingdom and British Possessions as mentioned above, at the bulk rate of 1 cent per pound.

3. Transient Newspapers.

Transient newspapers and periodicals include all newspapers and periodicals posted in Canada, *other than Canadian newspapers sent from the office of publication, and British, Canadian and foreign newspapers posted by newsdealers.* When addressed to any place within the Dominion, the United States or Mexico, and, when published in Canada, and addressed to any place in the

United Kingdom, or British Possessions as mentioned above, they must be prepaid the following rate by Postage Stamp:—

One cent per four oz. or fraction of four oz.

To countries other than those mentioned above the rate is one cent for two oz. or fraction thereof.

Transient newspapers and periodicals not published in Canada are subject to the ordinary printed matter rate of 1 cent per 2 ozs. when addressed to the United Kingdom or British Colonies.

Books, etc.

A Book Packet may contain any number of separate books. Limit of weight for domestic post (also for United States and Mexico), 5 lbs. (unless consisting of a single book, in which case a weight of 10 lbs. is allowed); for British and foreign post, 4 lbs. 6 ozs. Limit of size, domestic: 30 inches in length by 1 foot in width or depth, but a length of 3 feet 6 inches will be allowed, provided the combined length and girth do not exceed 6 feet; foreign: 18 inches in any direction, unless in the form of a roll, when a length of 30 inches is allowed provided the diameter does not exceed 4 inches.

Book packets must be open at *both ends or both sides*, and must not contain any letter or sealed inclosure.

Books for the use of the blind are free of Canada postage, and correspondence passing between blind persons in raised characters is chargeable at the rate of 1 cent per 2 ozs.

The rate on Book Packets for delivery in Canada, Great Britain, the United States and all Postal Union Countries, is 1 cent per 2 ozs.

Certain Miscellaneous Matter.

Miscellaneous matter, described as under, may pass between places in the Dominion of Canada upon prepayment of the rates indicated below. The regulations do not admit of the transmission by mail to the United Kingdom (or other countries beyond the sea) of miscellaneous matter as such; but a great part of the matter referred to under that head may be forwarded to the United Kingdom and other countries at the rate applicable to books, etc.:—

Matter (other than newspapers and periodicals), wholly in print without reference to process, such as circulars, catalogues, calendars, hand-bills, books, pamphlets, printed forms, maps, prints, drawings, plans (without written specifications) engravings, lithographs, photographs (when not on glass or in cases containing glass, official or private post cards in quantities, sheet music (whether printed or written) instruction books in music, visiting cards, the manuscript of books or newspapers (whether hand-written or type-written) indented or perforated sheets of paper containing characters which can be read by the blind, botanical entomological and mineralogical specimens and the following partly-written and partly-printed matter:—militia and school returns, customs manifests, voters' lists, school or college examination papers, printers' proof sheets with corrections, exhibition entry tickets, municipal assessment rolls, Dominion and Provincial Government returns on official blanks, and all Dominion and Provincial Government documents, statute labor returns and municipal returns in general, etc., on which the rate of postage is 1 cent for each 2 ozs. or fraction thereof. To come within this class the material printed upon must be either paper, cardboard or parchment.

Writing paper specially prepared for the use of the blind transmitted from a recognized Institution for the Blind in Canada to blind persons for their own use is allowed to pass at the rate of 1 cent for each 4 ozs. or fraction thereof; but before any Institution can post such paper at the above rate the Post Office Department at Ottawa must be satisfied as to its claim to be considered an Institution for the Blind.

No letter or other communication intended to serve the purpose of a letter must be sent or inclosed in any such package or thing mentioned, and the same must be sent in covers open at the ends or sides, or otherwise so put up as to admit of the contents being, if necessary, easily withdrawn for examination by the officers of the Post Office to ensure compliance with this provision (if enclosed in sealed envelopes notched at the ends or sides, or with the corners cut off, letter rate of postage will be charged).

The limit of weight for a packet of miscellaneous matter is 5 lbs., and the general limit of size is 30 inches in length by 12 inches in width or depth, but a length of 3 ft. 6 in. is allowed, provided that the combined length and girth of any packet do not exceed 6 feet.

Legal and commercial papers generally are liable to *letter rate* of postage when posted for delivery within the Dominion of Canada.

Printed or written *requests for return* are recognized on books, miscellaneous matter, samples and parcels of merchandise, addressed to places within the Dominion, and same will be *returned direct to the sender*, subject to the payment by the sender, on delivery to him through the Post Office, of the full amount of postage to which the article was in the first place liable, together with any charges rated thereon on account of any deficiency in the original prepayment.

British and Foreign Post—Commercial Papers.

"Commercial Papers" are understood to comprise all papers or documents written or drawn wholly or partly by hand (except letters or communications of the nature of letters or other papers or documents having the character of an actual and personal correspondence), documents of legal procedure, deeds drawn up by public functionaries, copies of or extracts from deeds under private seal and (whether written or printed on stamped or unstamped paper) way bills, bills of lading, invoices and other documents of a mercantile character, documents of insurance and other public companies, all kinds of manuscript music, the manuscript of books and other literary works, also open letters and post cards of ancient date which have already fulfilled their original purpose and pupils' exercises in original and corrected form but without any comment on the work. The rate is 1 cent per 2 ozs., but each packet must have a minimum prepayment of 5 cents; this prepayment will cover a weight of 10 ozs. No packet must exceed 18 inches in any direction unless in the form of a roll, when a length of 30 inches is allowed, provided the diameter does not exceed 4 inches. The weight must not exceed 4 lbs. 6 ozs.

Samples within the Dominion.

Samples of Merchandise and Goods for sale, not having saleable value and not exceeding 12 ozs. in weight, may be posted in Canada, to be forwarded to any place within the Dominion, on prepayment by Postage Stamp of a rate of 1 cent for each 2 ozs. or fraction thereof under the following regulations:

If insufficiently prepaid the packet will be forwarded charged with double the deficient postage, provided at least 1 cent is prepaid.

Packages of Samples addressed to any place in Canada, may be registered by affixing thereto stamps to the value of 5 cents in addition to the postage rate, and provided such packet be handed into the Post Office for registration.

Samples must be sent in covers open at the ends, so as to be easy of examination. Samples, however, of seeds drugs, &c., which cannot be sent in open covers, may be enclosed in bags of linen, or such like material, fastened in such a manner that they may be readily opened.

There must be no writing upon or in any packet of samples, except the address of the person for whom it is intended, the address of the sender, a trade mark or number and the price of the articles, or such words as may be necessary to indicate precisely the origin and nature of the merchandise.

Articles of saleable value even when intended to serve as samples are not admissible at sample rate.

Goods sent for sale or in execution of an order, however small the quantity may be, or any article sent by one private individual to another, which are not actually trade samples, are not admissible.

Liquids, oils, etc., may be sent by mail in the Dominion if put up carefully in strict accordance with the directions given in the Postal Guide and ascertainable at any post office.

Samples for United Kingdom, United States and Foreign Countries.

Samples of Merchandise, when addressed to places in the United Kingdom, must not exceed 5 lbs. in weight; to the United States, Mexico, and other foreign countries, 12 oz.; and must be prepaid by postage stamp at the following rates:—For the United States and Mexico 1 cent for each 2 oz. or fraction of 2 oz.; for the United Kingdom and other countries:—1 cent per 2 oz. or fraction of 2 oz., with a minimum prepayment of 2 cents covering a weight of 4 oz.

Samples of liquids, oils, glass, etc., are admitted as samples provided they are put up in strict accordance with the directions given in the Postal Guide.

Parcel Post in Canada.

Articles of Mail Matter acceptable at Parcel Post rates include farm and factory products, merchandise of all descriptions such as dry goods, groceries, hardware, confectionery, stationery (including blank books, etc.), seeds, cuttings, bulbs, roots, bedding plants, scions or grafts, and all other matter not included in the first class, and not excluded from the mails by the general prohibitory regulations with respect to objectionable matter.

Parcels containing intoxicating liquors or explosives are expressly prohibited.

The rates of postage on articles accepted for transmission by Parcel Post are as follows:

(*a*) Five cents for the first pound and 1 cent for each additional pound or fraction thereof, up to four pounds, and 2 cents for each subsequent pound up to eleven pounds within a radius of twenty miles from the place of mailing, irrespective of Provincial boundaries.

(*b*) Ten cents for the first pound and 4 cents for each subsequent pound or fraction thereof, for all points in the Province in which a package is posted, outside of the twenty mile radius.

(*c*) Ten cents for the first pound and 6 cents for each additional pound or fraction thereof, for all points outside the Province in which a parcel is posted, and beyond the twenty mile radius, with an additional charge of 2 cents a pound for each Province that has to be crossed to the destination of the parcel, not including the Province in which it is to be delivered up to a maximum of 12 cents a pound.

The three Provinces, Nova Scotia, New Brunswick and Prince Edward Island, are to be considered as one zone.

An additional charge to meet the extra cost of transportation will be made on parcels addressed to or posted at offices in certain outlying districts when such parcels have to be conveyed more than 100 miles by a continuous stage service, such districts to be designated by the Postmaster General.

The charge on any parcel shall not be greater than 1 cent an ounce.

The postage on Parcel Post packets must be prepaid by means of postage stamps securely affixed to the parcels.

An insufficiently prepaid Parcel Post packet is forwarded to destination subject on delivery to payment of double the deficiency, provided at least 1 cent is prepaid. After the additional postage required on any short paid parcel has been collected from the addressee, "postage due" stamps are to be affixed to the parcel and cancelled by the Postmaster.

Parcel Post packets totally unpaid will be sent to the Branch Dead Letter Office.

Parcels must be prepared for mailing in such manner that the contents can be easily examined.

It is desirable that the sender's address should appear either inside the parcel or on the cover. This must be kept distinct from the address proper.

Parcels are, when re-directed, chargeable with additional postage at the rate which would have been chargeable had they been originally mailed from the office of re-direction to the new address, except in cases where the original and the re-directed addresses are both within the delivery of the same Post Office.

The limit of weight for a Parcel Post packet is eleven pounds, and the general limit of size is thirty inches in length by one foot in width or depth, but parcels will be accepted up to 3 ft. 6 in. in length, provided that the combined length and girth do not exceed six feet.

Further information respecting the domestic Parcel Post regulations is obtainable at any Post Office.

Merchandise for United States.

There is strictly speaking no Parcel Post service from Canada to the United States, but packets of merchandise open to inspection, and not exceeding 4 lbs. 6 oz. in weight, may be posted in Canada for any place in the United States, at the rate of 1 c. for each ounce or fraction of an ounce, to be prepaid by postage stamps. Articles thus sent are subject to customs examination on arrival in the United States, and to the collection of any duty to which they may be found liable.

Parcel Post with the United Kingdom, Newfoundland and other British Colonies and Foreign Countries.

Closed parcels may be exchanged with the United Kingdom, Newfoundland and most foreign countries and British colonies under the following Regulations :—

1. Every Parcel must be fully prepaid by postage stamps.

2. The dimensions of a Parcel addressed to the United Kingdom must not as a general rule exceed 30 inches in length or 1 foot in width or depth, nor must the combined length and girth of any parcel exceed 6 feet, a length of 3 feet 6 inches is allowed, however, in the case of parcels containing articles such as golf sticks, umbrellas, etc. The dimensions of a Parcel addressed to countries other than the United Kingdom must not exceed 2 feet in length by 1 foot in width or depth. There are some exceptions to this rule, as may be ascertained at any Post Office.

3. A Parcel must not contain a letter or any writing in the form of a letter, or any explosive, combustible, or dangerous articles.

4. All Parcels must be securely and substantially packed and closed.

5. Oils, liquids, etc., can only be forwarded if put up with the same security required in connection with their transmission as samples in the ordinary mails. Fragile articles should be packed with special care.

6. Each Parcel must be plainly directed, and such direction must include the name and full address of the person for whom the parcel is intended.

7. For each Parcel the sender must fill up a Customs Declaration. On this form the sender will supply an accurate statement of the contents and value of the Parcel ; also the address thereof, with signature and place of abode of the sender. The Customs Declaration must be securely affixed by mucilage or paste to the parcel to which it relates.

Parcels from the United Kingdom or any other place beyond the Dominion will be liable to Canadian Custom duties, and under existing regulations must be examined for the purpose by an Officer of the Customs *in the presence of the persons addressed.*

Rates and limits of weight vary. See Postal Guide, or enquire at Post Office.

Parcels must be handed to the Postmaster ; in no case should they be dropped into a letter box or other receptacle for mail matter.

Prohibited Articles.

All explosive, dangerous or destructive substances, glass bottles or glass in any form liable to break, and all matter subject to speedy decay, all obscene or immoral books, publications, pictures, etc., libellous post cards and letters the covers of which bear words of an offensive character, and letters and circulars relating to illegal lotteries or other fraudulent schemes.

Useful Hints.

Register all valuable letters. Transmit money by Postal Notes or Money Orders. Make complaints and inquiries in writing, and address the Postmaster General at Ottawa. Preserve, and request correspondents to preserve, envelopes of missent or delayed letters. Send to the Postmaster General envelopes of letters about which you seek information or make complaint. In addressing letters add the name of the *County* and *Province* in which the office addressed is located. Place stamp on the right-hand upper corner of the address side. Put your own name and full address in or on letter, to insure return if it cannot be delivered. In affixing postage stamps moisten the envelope, *not the stamp.* When stamps are moistened the gum is apt to be removed.

Post Office Money Orders.

Owing to the continuation of the European War, money order business remains suspended with Austria, Belgium, Denmark, Germany, Holland, Hungary, Norway, Sweden, Switzerland and any of the countries and places served through those countries, also with Constantinople, Egypt and Luxemburg.

In view of this fact and also of the fact that the regulations may be still further changed, the usual Table of Foreign Money Orders is omitted from this year's Almanac.

In the foregoing list the asterisk denotes members of the British House of Lords entitled to the designation of "Right Honourable." Barons Aylmer and de Blaquière are of the peerage of Ireland and not members of the House of Lords. The title of Baron de Longueuil existed prior to the Treaty of Paris (1763), and was duly recognized by Queen Victoria pursuant to that treaty. Sir Wilfrid Laurier, Sir Robert Borden, Sir Charles Tupper, and Sir Charles Fitzpatrick are styled Right Honourable as members of the English Privy Council. Members of the Canadian Privy Council are designated above by a † and have also the title of Honourable. Judges are distinguished by a ‡ and are also by courtesy or custom Honourable. The English practice is to give the title of Knight Bachelor to members of the Judicial bench, and the Attorney and Solicitor-Generals. *** Senator; hence, honourable.

ORDERS OF KNIGHTHOOD, &c.

The Order of Baronets, the lowest hereditary rank, was instituted in 1611; a Baronet is designated "Sir John Smith, Baronet"—usually written Bart. Taking precedence of Baronets are members of The Most Honourable Privy Council, who are addressed "Right Honourable."

The Order of the Bath, instituted in 1399, and revived in 1725, is divided into three classes—Knights Grand Cross, G.C.B.; Knights Commanders, K.C.B.; and Companions, C.B.

The Order of St. Michael and St. George, instituted in 1818, has also three classes—G.C.M.G., K.C.M.G., and C.M.G.

The Royal Victorian Order, instituted in 1896, has five classes—G.C.V.O., K.C.V.O., C.V.O. Members 4th and 5th classes—M.V.O.

In all Orders of Knighthood the Knights Grand Cross and the Knights Commanders have the prefix "Sir" with the initials of their class following the name. Companions and Members bear no title, but have the letters C.B., C.M.G., M.V.O., as the case may be, attached to their names.

Knights Bachelors are gentlemen unconnected with any order who have received the honour of Knighthood, and are entitled to the prefix "Sir" and to "Knt." after name. They wear no insignia, and rank immediately after Knights Commander of the Victorian Order.

It follows that members of any order of Knighthood may be entitled to several prefixes and affixes, as: Field Marshal The Rt. Hon. Earl Roberts of Kandahar, Pretoria, and Waterford, K.G., K.P., G.C.B., G.C.S.I., G.C.I.E., V.C.; The Rt. Hon. Sir Wilfrid Laurier, G.C.M.G.

CHRONOLOGY OF THE WAR.

No attempt is made in this diary to include all the military operations of the Allies. Only the outstanding events are mentioned, and the effort has been made to maintain such a balance as to afford an understanding of the fluctuations in the fortunes of the opposing forces. Even the brief entries in this diary may suffice to explain why the Germans and the Allies are still contesting practically the same ground in France and Belgium, over which they were fighting in the early months of the war. The forward and backward movements of Russia are also noted; and attention is given to naval events and to the outstanding diplomatic exchanges which have resulted from naval policies of Germany and of Great Britain. While the whole field of operations has been covered special attention has been given to the part played by Great Britain and her colonies, and especially to that played by the Dominion of Canada.

COPYRIGHT IN CANADA.

The law of copyright in Canada is to be found in the Revised Statutes of Canada, 1906, Chapter 70, which embodies the provisions of the original Act. Its leading features may be briefly summarized as follows:—

Any person domiciled in Canada, or in any part of the British Possessions, or any citizen of any country which has an International Copyright Treaty with the United Kingdom, who is the author of any book, map, chart or musical composition, or of any original painting, drawing, statue, sculpture or photograph, or who invents, designs, etches, engraves or causes to be engraved, etched, or made from his own design, any print or engraving, and the legal representatives of such person or citizen, shall have the exclusive right to print, reprint, publish, reproduce and sell such works or compositions in whole or in part, and of allowing translations to be printed, reprinted or sold. Sec. 4.

Exception is made as to immoral, licentious, irreligious, treasonable and seditious literary, scientific or artistic work which is not the legitimate subject of such registration or copyright. Sec. 7.

The right of copyright endures for twenty-eight years from the time of recording the copyright. After the expiration of twenty-eight years the copyright may be extended for a further term of fourteen years to the author if he is alive, or if he is dead, to his widow or child or children, but in such case the title of the work secured must be a second time registered and all other conditions fulfilled which are required in regard to original copyrights, and the author or proprietor must publish a notice of such registration once in the *Canada Gazette*. Secs. 19, 20 and 48.

In no case shall the said sole and exclusive right and liberty in Canada continue to exist after it has expired elsewhere. Sec. 5.

A subsequent edition need not be registered unless it contains very important alterations or additions. Sec. 13.

The conditions for obtaining such copyright are:—

(1) That such literary, scientific or artistic work shall be printed and published, or reprinted and republished in Canada, or in the case of works of art, that they shall be produced or reproduced in Canada. Sec. 49.

(2) In the case of paintings, drawings, statuary and sculpture, a written description must be furnished to the Minister of Agriculture. In the case of books, maps, charts, musical compositions, photographs, prints, cuts and engravings, three copies must be furnished to the Minister, one of which is deposited in the library of the Parliament of Canada, and one in the British Museum. Secs. 11 and 12.

(3) The statutory fee must be paid to the Minister of Agriculture. Sec. 24.

(4) There must be inserted in the several copies of every edition on the title page, or on the page immediately following, if it is a book, or if it is a map, chart, musical composition, print, cut or engraving, or photograph, there must be impressed on the face thereof, or if it is a volume of maps, charts, music, engravings or photographs, upon the title page or frontispiece thereof the word, "Copyright, Canada, 19.. (year of registration), by (name of copyright proprietor)," but as regards paintings, drawings, statuary, and sculpture, the signature of the artist is deemed a sufficient notice of such proprietorship. Sec. 14.

A temporary copyright may be obtained when a literary work intended to be published in pamphlet or book form is being first published in separate articles in a newspaper or periodical. The title of the manuscript and a short analysis of the work must be deposited at the Department, and every separate article so published must be preceded by the words, "Registered in accordance with the Copyright Act." Sec. 9.

Temporary copyright secures to the proprietor all the privileges granted by the Copyright Act during the time of preliminary publication. Before being published, however, in book form, the work must be registered. Three copies of the work must be deposited with the application form and the fee.

An interim copyright may be obtained by the author of any literary, scientific or artistic work, or by his legal representatives pending the publication or republication thereof in Canada, by depositing at the Department a copy of the title or designation of such work intended for publication or republication in Canada, but such interim registration does not endure for more than one month from the date of the original publication elsewhere within which period the work must be printed or reprinted and published in Canada. Sec. 15.

The following fees are payable to the Minister of Agriculture:—On registering a copyright $1.00. On registering an interim copyright 50 cents. On registering a temporary copyright 50 cents. On registering an assignment $1.00. Certified copy of registration 50 cents. Registering any decision of a court of justice, for every folio 50 cents, etc. Sec. 24.

An action for the recovery of any penalty provided by the Copyright Act must be commenced within two years after the cause of action arises. Sec. 44.

If a book, as to which there is subsisting copyright, under the Copyright Act, has been lawfully published in any part of the British Dominions other than Canada, and if the author has lawfully granted a license to reproduce in Canada an edition or editions of such book designed for sale only in Canada, the Minister may prohibit the importation into Canada of any copies of such book, except with the written consent of the licensee, provided that two copies may be specially imported for the *bona fide* use of any public free library or any university or college library, or for any library of any duly incorporated institution or society for the use of its members. Sec. 28.

An assignment of a copyright, whether as to the whole interest or a part thereof, must be made by an instrument in writing made in duplicate and registered at the department. Both duplicates must be sent to the Department of Agriculture with the statutory fee. One is retained at the department and the other is returned with a certificate of registration to the person depositing it. Sec. 17.

International copyright, regulated by the Berne Convention, 1886, modified by the Act of Paris, 1896, is binding in the following countries:—Great Britain, the British Dominions, Germany, Russia, Belgium, Spain, France, Haiti, Italy, Switzerland, Tunis, Luxembourg, Monaco, Denmark, Japan and Sweden. An author belonging to any one of the countries named has the same rights in the other countries as the laws of his own country allow him. An author not belonging to one of the countries, who publishes for the first time in one of these countries, also has these rights. An author has the exclusive right of authorizing translations of his work during the entire period of his copyright in the country of origin of the work, but unless he has published such a translation within ten years the exclusive right ceases to exist. Serial stories and short stories are protected. Other articles are protected if the periodical bears upon it a general prohibition against translation; but political articles, news of the day and miscellaneous articles are not protected.

Under the Berne Convention the subject or citizen of a Union Country enjoys in Canada the same copyright protection as in his own country.

As to the existing arrangements between Great Britain and the United States with regard to the rights of citizens of each country to obtain copyrights in the other country, it is understood that a United States citizen can obtain copyright in Great Britain by simply exposing for sale a certain number of copies of his work on the day of publication within the British Empire, whereas the British citizen who desires to obtain a copyright in the United States has to have the type of his book set up in the United States and the book manufactured there.

Both the British Empire and the United States require first publication. Simultaneous publication in another country does not invalidate the copyright. Publications on the same day are treated as simultaneous.

The Rules and Forms respecting applications for copyright may be obtained at the Department of Agriculture, Copyright and Trade Marks Branch.

PATENTS IN CANADA.

The Patent Office is a Branch of the Department of Agriculture, and the Minister of Agriculture for the time being is the Commissioner of Patents.

Any person who has invented any new and useful art, machine, manufacture or composition of matter, or any new and useful improvement in any art, machine, manufacture or composition of matter, which was not known or used by any other person before his invention thereof, and which has not been in public use or sale with the consent or allowance of the inventor thereof for more than one year previously to his application for patent therefor in Canada, may, on a petition to that effect, presented to the Commissioner, and on compliance with the other requirements of the Act, obtain a patent granting to such person an exclusive property in such invention.

No patent shall issue for an invention which has an illicit object in view, or for any mere scientific principle or abstract theorem.

Any person who has invented any improvement on any patented invention, may obtain a patent for such improvement; but he shall not thereby obtain the right of vending or using the original invention, nor shall the patent for the original invention confer the right of vending or using the patented improvement.

The Patentee or his legal representatives must, within two years from the date of the patent or an authorized extension thereof, commence and continuously carry on in Canada the construction or manufacture of the invention patented in such manner that any person desiring to use it may obtain it, or cause it to be made for him at a reasonable price at some manufactory or establishment for making or constructing it in Canada. If after twelve months from the granting of the patent, or an authorized extension thereof, the Patentee or his legal representatives imports, or causes to be imported, into Canada the invention for which the patent is granted, such patent shall be void as to the interest of the person so importing.

The Commissioner, upon satisfactory cause being shown, may grant to the Patentee or his legal representatives an extension for a further term not exceeding one year beyond the twelve months during which he may import into Canada the invention; such application must be made within three months before the expiry of the said twelve months.

An Inventor obtaining a patent for his invention in a foreign country before obtaining a Canadian patent, may obtain the latter if same be applied for within one year from the date of the issue of the first foreign patent; and if within three months after the date of issue of a foreign patent the Inventor gives notice to the Commissioner of his intention to apply for a Canadian Patent for such invention, then no other person having commenced to manufacture the same device in Canada during such period of one year shall be entitled to continue the manufacture of the same after the Canadian patent has been obtained without the consent or allowance of the inventor.

Upon application for a patent, or within six months after issue of the patent, the Commissioner may order that, instead of the above provisions as to manufacture in Canada within two years, such patent shall be subject to the following conditions:—Any person, while the patent continues in force, may apply to the Commissioner for a license to make, construct, use and sell the patented invention, and if the Commissioner is satisfied that the reasonable requirements of the public have not been satisfied by reason of the neglect or refusal of the Patentee or his legal representatives to make, construct, use or sell the invention, or to grant licenses for so doing to others on reasonable terms, he may make an order under his hand and the seal of the Patent Office requiring the owner of the patent to grant a license to

the person applying therefor upon such terms as to royalties, etc., as the Commissioner deems just, and if the Commissioner makes such an order, and the owner of the Patent refuses or neglects to comply therewith within three Calendar months after a copy of it is addressed to him or to his duly authorized agent, the patent and all rights and privileges thereby granted shall cease and determine.

An application for a patent is made by a petition wherein the title or name of the invention is set forth, and in which the applicant declares that he is the inventor of the invention, as well as placing his domicile at some known and specified place in Canada, and such petition must be verified by affidavit or affirmation of the applicant that he believes he is the inventor of the said invention, and that the statements in the petition are true. Should the inventor be dead, such oath or affirmation may be made by his assignee or legal representative, and with the petition must be filed a specification (in duplicate) of the invention which shall correctly and fully describe the mode of operating same, the contrivances and things claimed as new, and for the use of which exclusive property and privilege is claimed, and shall bear the name of the place where, and date when, made, and shall be signed by the applicant and by two witnesses. In the case of a machine, the specification shall fully explain the principle and several modes in which it is intended to apply, and work out the same; and where the invention admits of illustration be means of drawings, the applicant shall also send in drawings in duplicate, showing clearly all parts of the invention. In all cases in which the invention admits of representation by model, the applicant, if required by the Commissioner, shall also furnish a model of convenient size; and when the invention is a composition of matter, the applicant shall also, on like request, furnish specimens of the ingredients and composition sufficient in quantity for the purpose of experiment.

In the case of conflicting applications for any patent, provision is made for submitting same to the arbitration of three skilled persons, two of whom shall be chosen by the applicants and the third by the Commissioner, and the decision or award in writing of such arbitrators, or of any two of them, shall be final.

A patent is granted for a term of eighteen years, but at the time of the application it is optional for the applicant to pay the fee for the term of six years, or twelve years only, as desired, and, unless further renewal payments are made, the patent expires on such dates respectively.

The patent may be assigned, but unless same duly registered in the Patent Office shall be null and void as against any subsequent assignee.

Every person who, without the consent in writing of the Patentee, makes, constructs, or puts into practice any invention for which a patent has been obtained, or who procures such invention from any person not authorized by the patentee, and who uses it, shall be liable to the patentee, or his legal representative, in damages.

Any action for infringement of the patent may be brought in any Court of record having jurisdiction to the amount of the damages claimed in the Province in which the infringement is alleged to have taken place. Proceedings may also be taken in the Exchequer Court, which has jurisdiction over the entire Dominion of Canada.

Every patentee shall stamp or engrave on each patented article sold or offered for sale by him the year of the date of the patent of such article, thus:—"Patented 1898," or as the case may be; or when, from the nature of the article, this cannot be done, then by affixing to it, or to every package where one or more of such articles is or are enclosed, a label marked with a like notice. For violation of this provision there is imposed a penalty not exceeding $100.00, and, in default of payment thereof, imprisonment for a term not exceeding two months.

Falsely marking an article as patented with the intent of counterfeiting or imitating the stamp, mark, or device of the patent of another person, or of deceiving the public, or offering for sale as patented any article not patented in Canada, is a misdemeanour, and for which there is a fine not exceeding $200.00, or imprisonment for a term not exceeding three months, or both.

Any intending applicant for a patent who has not yet perfected his invention, and is in fear of being despoiled of his idea, may file in the Patent Office a description of his invention so far, with or without plans, of his own will, and the Commissioner, on payment of the prescribed fee, shall cause the said document, which shall be called a caveat, to be preserved in secrecy, and, if application is made by any other person for a patent interfering in any way therewith, the Commissioner shall forthwith give notice, by mail, of such application to the person filing such caveat, who shall, within three months thereafter, if he wishes to avail himself of the caveat, file his petition, and take the other steps necessary on an application for a patent. The application for the patent must be made within one year from filing of caveat, otherwise the Commissioner is relieved from the obligation of giving notice.

The Government of Canada may, at any time, use any patented invention by paying to the Patentee such sum as the Commissioner reports to be a reasonable compensation for the use thereof.

All specifications, drawings, models, disclaimers, judgments, and other papers, except caveats, shall be open to the inspection of the public at the Patent Office, under such regulations as are adopted in that behalf.

The following fees are payable:—Full fee on patent for 18 years, $60.00; partial fee for 12 years, $40.00; partial fee for 6 years, $20.00; for further term of 12 years, $40.00; for further term of 6 years, $20.00; on filing caveat, $5.00; on registering assignment patent, $2.00; for copy of patent, with specification, $4.00.

The disbursements for filing an application in Great Britain are $25.00; France, $20.00; Germany, $5.00, and $7.50 before issuing patent; Australia, $20; Russia, $75.00; British India, $20.00. The German and French patents cover not only Germany and France but also their colonies. The Russian patent extends to all of the Russian possessions.

The disbursements for filing an application in the Australian States, namely, Queensland, Victoria, New South Wales, South Australia, Western Australia and Tasmania are $5.00 on filing of the application, $10.00 on allowance of same and $25.00 for preparation of the sealing of patent; New Zealand, $20.00; Mexico, $75.00; Natal, $50.00; Japan, $75.00; Jamaica, $150.00.

SEND YOUR PATENT BUSINESS DIRECT TO OTTAWA

The Patent business of Canada naturally centres in Ottawa. Here are the records of the Patent Office, and here is its examining corps, before some one of whose members all Applications for Letters Patent must pass for review and criticism. That such application may be facilitated and much time saved by the employment of competent attorneys on the ground with ready access to the Patent Office for personal oral discussion of cases with the examiners and prompt filings of amendments and other documents, is obvious. This is admitted by all the large firms located in other cities, practically all of whom are represented in Ottawa, and that inventors have come to see the great advantage of sending their cases direct to Ottawa, avoiding the delays and occasional misunderstanding, incident to passing the case, and amendments through two or more Attorneys' offices, is abundantly shown by the large number of applications filed directly through Ottawa Patent Attorneys.

Being located only a few doors from the Patent Offices, we are in the best position to give you valuable assistance in securing your Canadian Patent. We assure you that in placing your Invention in our hands, it will receive prompt and competent attention. The policy of this firm is to give the best satisfaction possible to our clients. THE BRITISH GOVERNMENT.

THE COALITION ADMINISTRATION.

In the last week of May, 1915, there was a re-organization of the Administration, which had been previously exclusively Liberal, and a new Government was formed, embracing the leading men in the Conservative and Labor Parties, as well as the leaders of the Liberal Party. A place in the Cabinet, it was officially announced, was offered to Mr. John Redmond, leader of the Irish Nationalists, but he did not see his way to accept it. A new department in the Government, which will cease to exist twelve months after the conclusion of the war, was created by Act of Parliament—the Ministry of Munitions—and Mr. Lloyd George was transferred from the Chancellorship of the Exchequer to become its head.

By a Special Act of Parliament, which was passed through all its stages in a single day, the new Ministers were relieved of the necessity of seeking re-election after taking office. There was little change in the balance of parties in the House of Commons,—Liberals 261, Unionists 288, Labor 37, Nationalists 84; but the ordinary party lines were obliterated after the formation of the Coalition Government.

THE OFFICE OF PRIME MINISTER.

By Royal Warrant dated December 6th, 1905, an important change was made in the status of the Prime Minister. Until 1894 the office of Prime Minister, although it had existed for so long, had no official recognition. "Departmentally," Mr. Gladstone once wrote in reference to the Prime Minister, "he is no more than the first-named of five persons by whom jointly the powers of the Local Treasurerships are to be exercised. He is not their master, or otherwise than by mere priority their head, and he has no special function or prorogative under the formal constitution of the office. He has no official rank, except that of Privy Councillor. Eight members of the Cabinet, including five Secretaries of State and several other members of the Government, take official precedence of him. His rights and duties as head of the administration are nowhere recorded. He is almost, if not altogether, unknown to the statute law."

The first official recognition of the office came on March 3rd, 1894, when the "Court Circular" stated that Queen Victoria had offered to the Earl of Roseberry the "post of Prime Minister, vacated by the Right Hon. W. E. Gladstone, M.P." Even after this first official recognition the precedence of the Prime Minister was not determined; and there was no determination of his precedence until the Royal Warrant of December 6th, 1905, which announced "our Royal will and pleasure that in all times hereafter the Prime Minister of us, our heirs and successors, shall have precedence next after the Archbishop of York." Consequently the Prime Minister now has his place between the Archbishop of York and the Lord Chancellor of Ireland, and precedence over every member of his Government except the Lord Chancellor.

THE GOVERNMENT DEPARTMENTS.

THE TREASURY.

Chancellor of the Exchequer—Rt. Hon. Reginald McKenna.
First Lord of the Treasury—Rt. Hon. Herbert Asquith.
Financial Secretary to the Treasury—Rt. Hon. E. S. Montagu.
Joint Parliamentary Secretaries to the Treasury—Mr. J. W. Gulland and Lord E. Talbot.
Lords Commissioners of the Treasury—Mr. G. H. Roberts, M. G. Howard, Mr. W. C. Bridgeman, and Mr. Walter Rea.

The Treasury, of which the Chancellor of the Exchequer is the political head, provides the means for meeting the charges for the military, naval, and civil services. The Parliamentary heads of each of the spending and administrative departments of the Government are responsible for the estimates for their respective departments; but it is the duty of the Chancellor of the Exchequer, with the permanent Secretary of the Treasury, to check all these estimates before they are submitted to the House of Commons in Committee of Supply. The Cabinet becomes responsible for estimates which have been submitted to Parliament, and the rejection or reduction of an estimate by the House of Commons is tantamount to a defeat of the Government. The duties which bring the Chancellor of the Exchequer most prominently before the country, are those in connection with the Budget. The first Lord of the Treasury is one of its Parliamentary heads; but the duties of the First Lord are little more than nominal, and the office is usually held by the Leader of the House of Commons. The Parliamentary Secretary to the Treasury is the official title of the Government whip in the House of Commons. The Junior Lords are his assistants. The Financial Secretary represents the Treasury in the House of Commons.

THE FOREIGN OFFICE.

Secretary of State for Foreign Affairs—Sir Edward Grey.

Under Secretary—Lord Robert Cecil.

All diplomatic intercourse is conducted by the Secretary of State for Foreign Affairs, who is usually of the House of Lords. The office is next in rank and importance to that of Premier, and is sometimes held in conjunction with that office. Ambassadors and consuls receive their instructions from the Foreign Office. Foreign ambassadors in London have their audiences with the Secretary of State, and he also conducts the negotiations for international treaties. The Under Secretary represents the Department in the House of Commons.

THE COLONIAL OFFICE.

Secretary of State for the Colonies—Rt. Hon. A. Bonar Law.

Under Secretary—Mr. Steel-Maitland.

The Colonial Office dates back to 1660, when a Committee of the Privy Council was appointed for the Plantations, as the Colonies were then called. This Council was continued until 1768, when colonial affairs were placed under the control of a Secretary of State. When the United States secured their independence in 1783, the office of Colonial Secretary was abolished, and colonial affairs were managed from the Home Office. In 1794 the colonies were placed under the care of the Secretary at War. This arrangement was continued until 1854, when the War Department was reconstructed, and separate Secretaryships of State were established for War and for the Colonies. The colonies are divided into three classes. In the first are the Crown colonies, in which the Crown has entire control of legislation, and which are administered from the Colonial office. India and Cyprus are examples of Crown Colonies. In the second class are the colonies with representative institutions, but not responsible government. In these the Crown has a veto on legislation and retains control of the public offices. Such colonies are Ceylon and Jamaica. The third class includes the colonies having responsible government, such as Canada and the Australasian colonies. Since August, 1907, the Colonial Office has been organized in 3 departments (1) Dominion Department, concerned exclusively with the self-governing colonies; (2) Crown Department concerned with Crown Colonies; and (3) Department having charge of legal and financial business. There was then appointed a Permanent Secretary for the Imperial Conference—Mr. H. W. Just being the first holder of the Office.

THE INDIA OFFICE.

Secretary of State for India—Rt. Hon. Austen Chamberlain.

Under Secretary—Lord Islington.

The India Office in its present form dates from 1858, when an Act of Parliament was passed which directed that all the powers and duties hitherto exercised by the old East India Company, or the old Board of Control, should in future be exercised and performed by one of His Majesty's Principal Secretaries of State. At the same time there was established a council to assist the Secretary for India. It consists of not less than ten members nominated by the Secretary. The majority of these members must be men who have served or resided ten years in India, and have not left India more than ten years previous to the date of their appointment. Members hold office for ten years, and under the direction of the Secretary for India, conduct all the business transacted in London in relation to the government of India.

THE HOME OFFICE.

Secretary of State for Home Affairs—Sir John A. Simon.

Under Secretary—Mr. W. Brace.

The Home Department has the control of the London police force, and also the oversight of the police forces in the counties and municipal boroughs; and, generally speaking, the Department is responsible for the internal peace of the country. Prisons, convict establishments, criminal lunatic asylums, executions, and all matters connected with the post-judicial execution of the criminal law, come within the purview of the Home Office. It is also responsible for the administration of the factory code, and the laws relating to mining.

THE WAR OFFICE.

Secretary of State for War—Lord Kitchener.

Under Secretary—Mr. H. J. Tennant.

Financial Secretary to the War Office—Mr. W. Forster.

The Secretary for War has control of the army at home and abroad, and is responsible for its efficiency to the Sovereign and to Parliament. He directs all movements of troops, and all appointments made by the Commander-in-Chief are subject to his approval.

THE ADMIRALTY.

First Lord of the Admiralty—Rt. Hon. A. J. Balfour.

Civil Lord of the Admiralty—Duke of Devonshire.

Secretary to the Admiralty—Dr. T. J. Macnamara.

The Admiralty, which has charge of the Royal Navy, is administered by Lords Commissioners. The head of the Department, who is always of the Cabinet, is known as the First Lord of the Admiralty. The other Lords Commissioners or Junior Lords are officers without seats in Parliament, and are respectively at the heads of the departments into which the Admiralty is divided. The foreign movements of ships are at the instance of the Cabinet, the Foreign Office, and the Colonial Office, and it is from these authorities that the Lords of the Admiralty receive their orders. In time of war the orders go from the Cabinet. At other times the movements of vessels are directed by the Foreign Office and the Colonial Office.

THE BOARD OF MUNITIONS.

President, Mr. David Lloyd George.

Controller-General—Sir Percy Girouard.

Permanent Secretary—Sir H. Llewellyn Smith.

Parliamentary Secretary—Dr. C. Addison.

The powers of the President of the Board of Munitions are defined in the Act creating it, as "such powers and duties in relation to the supply of munitions for the present war as may be conferred on him by His Majesty in Council." His Majesty may also "if he considers it expedient that in connection with the supply of munitions any powers or duties of a Government Department or authority whether conferred by statute or otherwise, should be transferred to or exercised, or performed concurrently by the Minister of Munitions, make the necessary provision by Order in Council for the purpose." The duties of the office may be classed under three heads:—The organization of private industry for the production of naval and military munitions; the inspection of munitions made by private contractors; and the placing of munitions contracts for army and navy, the arranging for execution of future contracts and the taking over of factories.

THE BOARD OF EDUCATION.

President—Rt. Hon. A. Henderson.
Secretary—Mr. Herbert Lewis.

The Education Department exercises supervision over the various departments of state-aided education, and distributes the grants for education annually made by Parliament. These grants date from 1833; and in 1839 the Committee of Council for Education was established. The Vice-President was always of the House of Commons, and he was practically the Minister of Education. On the 1st of April, 1900, the Committee of Council for Education came to an end, and the powers it had exercised since 1839, enormously increased, however, since 1870, were transferred to a new State Department known as the Board of Education. The new Board was created under an Act of Parliament passed in the ordinary session of 1899. It consists of a President, the Principal Secretaries of State (these are the Secretaries for Foreign Affairs, for Colonial Affairs, for the Home Department, for War, and for India), the First Commissioner of the Treasury, and the Chancellor of the Exchequer. With the creation of this new Board there was for the first time a direct and general connection between the Government and secondary schools in England. Heretofore the Committee of Council had been concerned chiefly with elementary education, except as regards the Science and Art Department. Now, however, inspectors representing the Board of Education may visit the secondary schools, and a connection is established between these schools and the municipal councils. With the new Board of Education there was also created a Consultative Committee, which was to keep a register of teachers, and advise the Board on any matters referred to it. Universities and other bodies concerned in education are represented on the Consultative Committee. At the formation of the Balfour Government in 1902, and the retirement of Sir J. Gorst, Vice-President, the Marquis of Londonderry became the first President of the Board and Sir W. R. Anson the first Secretary.

THE LOCAL GOVERNMENT BOARD.

President of the Local Government Board—Rt. Hon. Walter H. Long.
Parliamentary Secretary to the Local Government Board—Mr. W. Hayes Fisher.

This Department dates from the reform of the Poor Law in 1834. From 1834 to 1847 its chief was not of the Ministry nor in Parliament. Up to 1871 it was occupied exclusively with the administration of the Poor Law. In 1871 it took over from the Home Department numerous duties in connection with municipal government and public health, and its title was changed to the Local Government Board.

THE BOARD OF TRADE.

President of the Board of Trade—Rt. Hon. Walter Runciman.
Parliamentary Secretary to the Board of Trade—Capt. Pretyman.

The Board of Trade is in charge of the administration of the laws relating to limited liability companies, to bankruptcy; and it also has the oversight of all matters connected with the mercantile marine, harbours, canals, railways, and street car lines and electric lighting. The Labour Bureau is a department of the Board of Trade. Its work is confined to the collection and compilation of information of all kinds relating to labour. The Board of Trade also collects information relating to trade and commerce abroad.

THE POST OFFICE.

Postmaster-General—Rt. Hon. H. Samuel.
Assistant Postmaster-General—Mr. Pike Pease.

The Post Office in England controls the telegraphs, as well as the home and foreign mail departments. The telegraphs have been a Government undertaking since 1869. The Post Office savings banks, of which there are over 12,000, receive sums up to a maximum of £50 in one year, or £200 in all. They also do a life insurance, and an annuity business on lines intended to meet the needs and convenience of the working classes.

The National Insurance Act of 1910 is worked partly through the Post Office, as is also the Old Age Pension Act of 1908.

THE BOARD OF AGRICULTURE.

President of the Board of Agriculture—Lord Selborne.
Parliamentary Secretary to the Board of Agriculture—Mr. F. D. Acland.

The principal duties of this Department are the administration of the laws for preventing and stamping out cattle disease. It supervises the landing of live cattle imported from abroad.

OFFICE OF PUBLIC WORKS AND BUILDINGS.

First Commissioner of Works—Rt. Hon. Lewis Harcourt.

This Department has the custody and supervision of all Royal Palaces and parks, and also of buildings such as the Houses of Parliament, the Palace at Westminster, the Law Courts, and the public offices at Whitehall.

DEPARTMENT OF THE LORD CHAMBERLAIN.

Lord Chamberlain—Lord Sandhurst.
Vice-Chamberlain—Mr. Cecil Beck.
Comptroller of the Household—Mr. Charles Roberts.

The Lord Chamberlain's Department has the genera supervision of the Royal Household "above stairs," and also various duties towards the Sovereign and the Court. It is through the Lord Chamberlain that presentations at Court are arranged. In cities where there are royal palaces, he acts as the licenser of theatres. The Examiner of Plays is in the Department of the Lord Chamberlain. His sanction is necessary for the production of a play in any theatre in England at which a charge for admission is made.

IRISH AND SCOTCH DEPARTMENTS.

Chief Secretary for Ireland—Rt. Hon. Augustine Birrell
Sec'y for Scotland—Rt. Hon. Thomas McKinnon Wood.

These Departments for Ireland and Scotland respectively exercise functions very similar to those of the Home Department in England.

Officers of the House of Commons.

Rt. Hon. James William Lowther, elected Speaker in June, 1905 (salary £5,000), was again unanimously re-elected on the opening of the new parliament in February, 1910. Mr. J. H. Whitley, in October, 1911, became Deputy Speaker and Chairman of Committees of Ways and Means (salary £2,500). Sir Courtenay Peregrine Ilbert is Clerk of the House (salary £1,800); Sir Colin Keppel, Sergeant-at-Arms (salary £1,000); and the Venerable A. B. O. Wilberforce, Speaker's Chaplain, with a salary of £400.

MINISTERIAL PENSIONS.

Pensions are granted to ex-holders of Ministerial offices whose private fortunes are inadequate to their maintenance in their station in life. The number of these pensions, the three classes into which they are grouped according to offices held—£800, £1,500, £2,000 a year—and the conditions governing their award are determined by the Political Offices Pensions Act of 1869 (32 and 33 Victoria, c. 60)—an Act which was passed as an amendment to the Pensions Act of 1834. The present pensioners are Lord George Hamilton since 1892 in the first class; Mr. Henry Chaplin and Lord Balfour of Burleigh in the second class. No new pensions have been granted since the Balfour Government went out of office in December, 1905.

The party representation in the National Cabinet of 1915 is as follows:—Liberals, 12; Unionists, 8; Labor, 1; Non-party, 1 (Lord Kitchener).

Salaries of Ministers are fixed by Act of Parliament, but each Minister is to do as he pleases with his salary. The new Ministers agreed to pool their salaries, which differ in amount, and to divide equally—an arrangement which gave each Minister about £4,500. The pooling arrangement excited some discussion and led to a proposal that there should be a general revision of Ministers' salaries.

THE BRITISH PARLIAMENT.

The British House of Commons, since the Franchise and Redistribution Acts of 1884-5, consists of 670 Members. Geographically, the seats held by these Members are distributed as follows:—

England		465
London	61	
Boroughs	165	
Counties	234	
Universities	5	
Wales		30
Boroughs	11	
Counties	19	
Scotland		72
Burghs	31	
Counties	39	
Universities	2	
Ireland		103
Boroughs	16	
Counties	85	
Universities	2	
Total	670	

Qualifications for the Parliamentary franchise are various, but generally speaking the franchise is on a democratic basis; so much so, that it is possible for every man who is a householder, and who has been in occupation for a year previous to the enrolment of electors, to vote at a Parliamentary election. There is also a lodger franchise; but in this case the franchise is based upon the rental value of the rooms. It is also governed by the conditions of the tenancy, and but comparatively few men qualify for the lodger franchise, which, unlike the householder franchise, must be claimed every year. A decision in the law courts, Kent *v.* Fittai, 1905, has brought into prominence the occupier franchise, which is granted to men renting rooms over which they have complete control. These men are not lodgers, and they hold the franchise on the same basis as the householder. Tens of thousands of working men voters were added to the electoral lists in 1906 as a result of this decision, but more recent decisions have considerably curtailed the numbers of men admitted to this form of the franchise.

The electoral rolls are compiled by the local overseers of the poor, as most of the franchises are based on the payment of the poor rate. The rolls are then gone over in open court by the revising barristers, who hold their sessions every year, as a new list of voters is compiled each year. In England the new register comes into effect on December 1st.

At the general election in December, 1910, which was taken on the same register as the election in January, 1910, out of the 7,705,717 voters on the register, 6,189,369 went to the polls; 3,269,770 voting for Liberal, Labor and Nationalist candidates, and 2,919,599 for Conservatives and Unionists.

On an old register, it is generally conceded by both parties that the Liberals suffer more than the Conservatives, on account of the disfranchisement of an undue proportion of working class Liberal voters through removal out of the constituencies.

In the Budget for 1911, which was introduced in the House of Commons on May 16th, provision was made for the payment of salaries of £400 to members of Parliament. The Liberal party had long been pledged to this reform, but the immediate occasion for the change was the embarrassment caused to the Labor party through the decision of the House of Lords in the case of Osborne versus the Amalgamated Society of Railway Servants, that Trade Unions may not legally use their funds for financing Parliamentary Representation. Previous to 1911 Members of the House of Commons received neither salaries nor indemnities. There are no mileage allowances or railway privileges, and Members do not enjoy the privilege of franking their correspondence through the mails.

Parliamentary candidates pay all the costs of elections, including the returning officer's fees and expenses. Deposits to cover these outlays must be made to the returning officer before a candidate can go to the poll. In the counties, the High Sheriffs, or their deputies, act as returning officers. In the self-contained boroughs—that is, in the boroughs which return Members, and are not part of a county division—the Mayor acts as returning officer.

Elections are not held all on one day. A general election usually extends over a month, and, if an elector is qualified in several constituencies, he can vote in each. Only freeholder voters can exercise the franchise in this way, as residence is not a necessary qualification for a freehold vote.

The chief issue in the election of December, 1910, was again the veto power of the House of Lords. The election of January, 1910, gave a popular majority against the veto, but the death of King Edward in April, so shortly after the assembling of the newly elected Parliament, brought about a truce, and a conference of the leaders of the Liberal and Conservative parties was held through the summer of 1910. The first meeting of the conference was held on June 17th, and the failure of the conferees to come to any agreement was announced in November 10. The meetings were in secret, and no report of proceedings has as yet been made public. After this failure, Parliament was dissolved on November 29, and the abolition of the veto of the House of Lords was placed first on the programme of the Liberal party in the elections, the first pollings of which took place on December 3rd, and the last on December 19th. Other questions at issue were social reform, tariff reform, woman's suffrage, and Home Rule for Ireland. The Parliament bill—the Lords' Veto Act—was introduced in the new House of Commons on February 21st, 1911; was sent to the House of Lords after third reading on May 15th; passed the House of Lords on August 10th, and received the Royal Assent on August 18th.

At the time of the dissolution on November 29th, parties in the House of Commons which had been elected in January, 1910, stood as follows:—

Liberals	275	397
Labor Party	40	
Nationalists	72	
Independent Nationalists	10	
Unionists		273
Government majority		124

The General Elections of December, 1910, effected very little change in the political complexion of the House of Commons. At the completion of the elections the parties stood as follows—

Liberals	272	398
Labor Party	42	
Nationalists	76	
Independent Nationalists	8	
Unionists		272
Total		670
Government majority		126

Mr. Speaker Lowther was of the Tory party when he was elected to the Chair in 1905. As has now long been the usage at Westminster, he was re-elected at the opening of the Parliament in 1906, again in 1910, and again when Parliament assembled on January 31st, 1911. In the foregoing enumeration the Speaker, although he takes no sides in the House of Commons is reckoned as belonging to the Conservative party.

In accordance with the Parliament Act of 1911, the Parliament elected December, 1910, would have reached the end of its existence at the end of 1915. In order to avoid a general election during the war, a government bill was introduced in November, by which the term of the war was to be entirely omitted in calculating the lifetime of Parliament, and the House of Commons would have 16 months to run after peace was concluded.

Between the General Election of December, 1910, and the reassembling of Parliament in October, 1914, the Asquith Government, as a result of the by-elections had lost eleven seats; the Labor party had lost five seats; and the Unionists had gained sixteen seats, and had lost eight seats to the Conservatives. At the reassembling of Parliament in October 22, 1914, the position of the parties in the House of Commons was:—

Liberals	261	670
Labor	37	
Nationalists	76	
Independent Nationalists	8	
Unionists	288	

The number of members of the House of Lords at the opening of the Parliamentary session in 1915 was 649, made up as follows:—

Hereditary Peers of the United Kingdom	573
Life Peers	6
Archbishops and Bishops	26
Scottish Representative Peers	16
Irish Representative Peers	28

Of the 573 peers of the United Kingdom 12 were then minors, and there was one case of contested succession, leaving the voting strength of the House of Lords when Parliament opened, 636.

Only in so far as concerns Scotland is the House of Lords affected by a general election. After a dissolution of Parliament, the Scotch Lords meet at Holyrood Palace, and in accordance with the terms of the Act of Union elect sixteen peers to represent them in the House of Lords. At the election in December, 1910, the sixteen peers chosen to represent Scotland were all of the Unionist Party. At the final division in the House of Lords on the Veto Act, which was taken on the question of whether or not the peers would adhere to the amendments to the Bill, concurrence in which was refused by the House of Commons, 131 peers voted with the Government and 114 voted against. These 131 votes did not, however, represent the Liberal strength in the House of Lords, for a number of the peers and eleven of the bishops voted with the Government in order to avoid the swamping of the House of Lords by the creation of Liberal peers. "I did not vote for the Bill," said the Archbishop of York on this occasion, "I voted against the creation of from 450 to 500 new peers." These votes and those of 30 Unionist peers gave the Government in this final division a majority of 17.

THE POPULATION OF THE UNITED KINGDOM.

The census of the inhabitants of England and Wales, Scotland and Ireland, the Isle of Man and the Channel Islands is taken in the first year of each decade. The enumeration is carried out by means of household schedules—a plan first adopted in 1841. In taking the census for England and Wales in 1911 the enumerators worked under the direction of the 2,009 local registrars, and these again under the direction of the 635 superintendent registrars. The 2,009 registration districts were subdivided into 35,000 enumeration districts.

By means of this machinery the total number of persons returned as living in England and Wales at midnight of Sunday, April 2nd, 1911, was 36,075,269. For Scotland, the total population was returned as 4,759,521; for Ireland, 4,381,951; and for the islands of the British seas—the Isle of Man and the Channel Islands—148,934, making a total population for the United Kingdom of 45,365,675. The following table gives the actual population and the rate of increase in England and Wales for the last 110 years:—

Year.	Population.	Rate of Increase.
1801	8,892,536	.....
1811	10,164,256	14·00
1821	12,000,236	18·06
1831	13,896,797	15·80
1841	15,914,148	14·27
1851	17,927,609	12·65
1861	20,066,224	11·90
1871	22,712,266	13·21
1881	25,974,439	14·36
1891	29,002,525	11·65
1901	32,527,843	12·17
1911	36,075,269	10·91

During the 110 years it will thus be seen that the population of England and Wales has more than quadrupled, and that, roughly speaking, there are now four persons to every one inhabiting the country at the opening of the nineteenth century.

Ireland is the only part of the United Kingdom in which a religious census is taken. According to the returns of the enumerators at the census of 1911, out of the 4,381,951 inhabitants of Ireland, 3,238,056 are of the Roman Catholic Church; 575,489 are of the Episcopal Church; 439,876 are Presbyterians, and 61,806 are Methodists. In the decrease of population, the Roman Catholics have lost the most, both in actual numbers and proportionately. The loss of the Roman Catholics is reckoned at 2·1 per cent.; of the Episcopalians, 1 per cent.; of the Presbyterians, 0·8 per cent.; and of the Methodists, 0·3 per cent. Of the total population the percentages are:—

Roman Catholics	73·9	per cent.
Episcopalians	13·1	"
Presbyterians	10·0	"
Methodists	1·4	"
Scattering	1·6	"

Population of the Oversea Dominions.

The Commonwealth of Australia, the Dominion of New Zealand, and the Union of South Africa took their census in 1911. The figures for Australia were:—

	Males.	Females.	Total.
New South Wales	857,719	790,491	1,648,210
Victoria	654,523	660,477	1,315,000
Queensland	329,043	276,000	605,043
South Australia	207,358	201,200	408,558
Western Australia	165,373	120,613	285,986
North Australia	2,748	562	3,310
Tasmania	97,336	.93,562	190,878

Total population for the Dominion of Australia, 4,455,005. The population of Australia in 1901 was 3,773,801.

The population of the Dominion of New Zealand in 1911 was 531,910 males, 476,658 females; total 1,008,468.

For the Union of South Africa the total population of all races was 5,938,499, as compared with 5,185,824 in 1904. Of these there are 1,278,025 Europeans, compared with 1,116,806; and 4,061,082 natives, as compared with 3,495,104. The other colored inhabitants number 619,392, as compared with 563,914. The feature of the returns for South Africa is the shrinkage in the population of the coast towns with the exception of Durban, and the great growth of Johannesburg, the Reef and Pretoria.

GREAT BRITAIN'S FINANCIAL POSITION AFTER A YEAR OF THE WAR

The National Debt of Great Britain, at the end of the fiscal year 1915-1916, will stand at £2,200,000,000. This is the statement made by Mr. McKenna, Chancellor of the Exchequer, when he presented his first budget to Parliament on September 21st, 1914. There was a deficit in 1914-1915 of £334,000,000. This represented the expenditures of the first eight months of the war. For the year ending March 31st, 1916, the estimated deficit was £1,285,000,000, all of which had to be added to the National Debt.

The National Debt.

On the eve of the last great European war in which Great Britain was engaged—the war with the French Republic and later with Napoleon, which began in 1793—the National Debt, an institution which dates no further back than the Revolution of 1688, stood at £230,000,000. The beginning of this debt was in 1693, when the Bank of England was chartered, and its capital of £1,200,000 was lent to the Government at eight per cent. interest. By the time peace was made at Ryswick in 1697, the debt amounted to £21,500,000. At the accession of George I in 1714, it stood at £54,000,000; and by 1748, the date of the peace of Aix-la-Chapelle, it had mounted to £78,000,000. At the end of the Seven Years War—1756-1763—it was £139,000,000. In the twelve years that intervened between the Peace of Paris, and the beginning of the American Revolution in 1775, the debt had been reduced to £129,000,000; but at the end of the American Revolution in 1783, it had reached £268,000,000, and at that time it involved an annual charge of £9,437,862.

The Debt and the Napoleonic Wars.

There was some reduction between 1783 and the beginning of the war with France in 1793, when, as has been stated, the National Debt stood at £230,000,000. The figures moved quickly upwards between 1793 and the Peace of Amiens in 1802; and the second war with France, which ended in 1815, added £420,000,000. When peace was re-established after Waterloo, the debt stood at £885,000,000, and involved an annual charge of £32,000,000 on British tax payers—a charge equal to more than half the expected net return from income and land and house taxes in the fiscal year 1914-1915. Although there were some quite large liquidations between 1815 and 1865, the Crimean War of 1854-1856 gave the National Debt an upward impetus, and in 1865 it stood at £800,457,258.

The Low-Water Mark of the Debt.

This was the high-water mark of the period between the Crimean War and the stupendous conflict now raging in Continental Europe; and by 1899—the year in which the war in South Africa began—the debt reached its lowest point of the period between 1815 and 1914. At the time Kruger declared war, the debt stood at £635,393,734. By 1905, as a result of the South African War, it had mounted to £796,736,491. Liquidation proceeded satisfactorily from 1905 to the end of the fiscal year 1913-1914. In 1907-1908 the debt was reduced by £8,204,000; in 1908-1909 the reduction was £16,838,000; for 1909-1910 it was £12,657,000; and by March 31st, 1914, the debt, funded and unfunded, had been brought down to £707,654,110.

While from time to time, as for instance in the wars with France in the middle of the eighteenth century, immense amounts of this indebtedness had been incurred in defending Great Britain's over-sea possessions, the people of England and Wales, Scotland and Ireland, are the only people who at any time have been called upon to pay the interest on the National Debt or to contribute to the sinking fund by which it has been reduced.

Great Britain's Normal Revenue and Expenditures.

The expenditures of Great Britain for 1913-1914 were £205,985,000. Mr. Lloyd George, Chancellor of the Exchequer in the Asquith Administration, submitted his budget for 1914-1915 to the House of Commons on May 4th, 1914. Revenue and expenditures for 1914-1915—including £51,550,000 for the Navy and £28,845,000 for the various British military forces, nearly balanced at about £198,000,000.

There was another budget in November, after the war had begun. Mr. Lloyd George then proposed new taxes calculated to bring in a revenue of £68,500,000 in a full year. In 1914-1915 the revenue rose to £227,000,000 and the expenditures to £561,000,000. This increased revenue was wholly inadequate, but no new taxes were proposed in the second war budget brought in in May. In the third war budget—that of September 21st,—Mr. McKenna proposed new taxation to the amount of £78,000,000, increasing the revenue from the estimate of £272,000,000, which the taxation of November, 1914, would have brought in for a full year, to £305,000,000, with the higher taxation for the half-year up to March 31st, 1916, and to £387,000,000 for 1916-1917, when the higher rates will be effective for a full year.

The largest increases were in the income taxes, the changes in which were as follows:—all-round increases for full year 40%; for the half-year 20%: exemption limit reduced from £160 to £130; abatement on incomes of £400 reduced from £160 to £120; abatement on incomes of £500 reduced from £120 to £100; abatement on incomes of £600 reduced from £120 to £100; agricultural assessments to be based on rent paid instead of one-third of rent; increases in super tax rising to 3s. 6d. on surplus of incomes above £10,000.

Without the super tax the increase in the income tax for a full year is estimated to yield £44,400,000, and the super tax £2,685,000. Under this taxation the man with £4 a week will pay £9 4s. a year in income tax; the man with £5,000 a year will pay £1,029 a year—practically a rate of 4s. 1½d. in the pound; while the man with £20,000 will pay £6,029, a rate of 6s. in the pound.

Besides the income tax the budget of September 21st laid a tax of 50% on all profits exceeding £100 of any trade, manufacture, or business, whose profits since the war began exceeded the profits made in the year previous to the war. The estimated yield of this war-profits tax for a full year is £60,000,000. This tax is in addition to the income tax paid by the men enjoying such war profits.

The remainder of the increased revenue is to be obtained from increased customs and excise duties on tea, cocoa, coffee, tobacco and dried fruits; and new duties of 33⅓ ad valorum on watches, clocks, motor cars and motor cycles; and from increased postal and telegraph charges. The customs taxation is estimated to yield in a full year £25,070,000, and from the postal charges £4,975,000.

In the war budget of November, 1914, Mr. Lloyd George estimated the cost of the navy at £146,000,000; of the army at £600,000,000; and of external advances to the allies at £200,000,000. For 1915-1916, Mr. McKenna estimated the cost of the navy at £190,000,000; of the army, £815,000,000; and of the external advances, £423,000,000. The current daily expenditure up to September had averaged £3,500,000, but Mr. McKenna warned the House of Commons that the country would have to count on an average daily expenditure of £4,500,000, probably rising to £5,000,000 a day in the later weeks of the financial year.

Every person applying for Letters Probate or Letters of Administration to the estate of the deceased person must file with the Surrogate Registrar within six months after the death of the deceased or such later time as may be allowed by the Provincial Treasurer, a statement duly verified containing a full inventory in detail of all the property of the deceased and the fair market value thereof at the date of his death as well as showing every person to whom the same passed with their places or residence and degree of relationship in which they stand to the deceased. Provision is also made for subsequent collection of duty on any property not disclosed therein. The provisions of the Act apply to transfers of property other than for valuable consideration made since 1st July, 1892.

Property outside as well as that within Ontario must be set out and if Succession Duties are payable to any other Province or Country with which Ontario has a reciprocal arrangement for so doing, a rebate of the duty on such outside property will be allowed.

No foreign executor can assign or transfer any bond, debenture, stock or share in any bank or other corporation having its head office in Ontario, standing in the name of the deceased person until the duty has been paid and if such bank or corporation permits same it shall be liable for said duty.

The duty may be paid within eighteen months after the death of the deceased without interest, but if not then paid, interest at five per cent per annum will be charged from date of death until the duty is paid. Instead of paying duty security may be given therefor to the satisfaction of the Provincial Treasurer. The executor is prohibited from paying or handing over any property to any of the beneficiaries until payment of duties, but should he do so the duty thereon with an additional rate of fifty per cent. is recoverable against him. Each beneficiary is liable for the duty upon the property passing to him. Power is given to any person liable to pay duty to raise same by sale, mortgage, or lease of the property vested in him or under his control.

The Provincial Treasurer has power to remit duty in cases of persons killed while on active military or naval service.

There are a number of provisions in the Statute as to the mode of ascertaining the value of property, the amount of duty thereon and the payments thereof and it would be generally advisable to consult a Solicitor to prevent complication and delay.

THE LAW OF INTESTATES ESTATES,

PROVINCE OF ONTARIO.

DESCENT AND DISTRIBUTION OF PROPERTY.

As to all persons who died before the first day of January, 1852, the rules of descent are substantially the same as in England at that date.

Real estate of persons who died intestate (*i.e.*, who have left no will) after that date and prior to the first day of July, 1886, descends first to lineal descendants and those claiming by or under them *per stirpes*, second to father, third to mother, and fourth to collateral relatives, subject to certain rules and regulations prescribed in the statute.

The surplus personal estate of intestates who died prior to the first day of July, 1886, is, after the expiration of one full year from the death of the intestate, to be distributed in the following manner: One-third shall go to the widow of the intestate, and the residue in equal proportions to his children, or if dead, to their lineal descendants; if there are no children or legal representatives subsisting, then where the net value of the real and personal estate does not exceed $1,000, same belongs absolutely to the widow, and as to any excess over and above said amount after payments of debts, etc., the widow takes a moiety, and the other moiety goes to the next of kindred, in equal degree, and their representatives; if no widow, all to children; if neither widow nor children, all to next of kin, in equal degree, and their representatives. But no representation is admitted among collaterals further than children of intestate's brothers and sisters.

All real and personal property of persons dying on or after the 1st day of July, 1886, devolves upon and becomes vested in the legal personal representatives for the period of three years (which may be extended in a prescribed manner) subject to the payment of debts and to the effectual dispositions of deceased. The real and personal property of a married woman, in respect of which she has died intestate, shall be distributed as follows: One-third to her husband, if she leaves issue, and one-half if she leaves none, and subject thereto, shall go as if her husband had predeceased her. The realty and personalty comprised in a residuary devise or bequest is (unless the will otherwise directs) applicable ratably according to their respective value to the payment of the debts.

Collegiate Institutes and High Schools.

Each of the High Schools (which form the intermediate link between the Public Schools and the Universities) is managed by a Board of at least six Trustees, appointed jointly by the County and Town Councils. In cities the Trustees may be appointed by the City Councils, or may be elected by general vote of qualified electors. Separate School Boards of Trustees have also the right to appoint trustees. The Principal of the High School or Collegiate Institute must be a graduate of a British or Colonial University, and certified as experienced in teaching. Assistants must also have received the prescribed training. Fees are charged in many cases, and local rates must be raised. Every High School should have a Principal and at least two assistant teachers. Each Collegiate Institute receives a fixed amount of $250, and each High School with fewer than four teachers $300, other schools $275, and also a certain sum on salaries of teachers, general equipment and suitability of school premises. High Schools which have complied with certain conditions as to equipment, special teachers, etc., may be made Collegiate Institutes, and receive an additional grant. Special grants ranging from $40 to $160 are also given to "Approved Schools." Pupils attending Continuation and High Schools, and Collegiate Institutes may receive training fitting them for business life or the academic standing required of school teachers, or may be prepared for Matriculation to the Universities. There were 48 Collegiate Institutes, 113 High Schools, and 131 Continuation Schools doing the same grade of teaching in connection mainly with the Public and Separate Schools, in Ontario in 1914.

Public Schools.—Each Township is divided into School Sections of a suitable extent for one School; and in each of these Sections three Trustees are elected to form a Board to manage its school affairs. In Cities, Towns and Villages, the Schools are managed by an elected Board of at least six Trustees.

TECHNICAL AND INDUSTRIAL SCHOOLS.

The Industrial Education Act of 1911, amended in 1913, provides for the organization of a system of Technical and Industrial Schools for Ontario. These schools are (1) *Day Schools*, as follows:—(*a*) General Industrial Schools and Courses for instruction in such subjects as may form a basal preparation for the trades, including workshop practice; (*b*) Special Industrial Schools and Courses, for instruction in the theoretical and practical work of particular trades; (*c*) Techinal High Schools and High School Courses; (*d*) Part-time co-operative Industrial Courses in which apprentices employed in the workshops may receive instruction bearing upon their trades; (*e*) Schools and Courses for instruction in the fine and applied arts. (2) *Evening Schools*, in which workmen and workwomen employed during the day may receive theoretical and practical instruction in their trades or callings. Each school is under the control of an Advisory Industrial Committee appointed by the High School Board of the municipality. This committee consists of an equal number of representatives of the Board and of the manufacturing or other industries of the place. The representatives of the industries are made up equally of employers and employees. The schools are liberally supported by Government grants, based upon the amount paid for the salaries of the teachers, and upon the accommodations and equipment provided. Schools have been established under this Act as follows:—*Day Schools* at Brantford, Haileybury, Hamilton, London, Sault Ste. Marie, Sudbury, Toronto; *Evening Schools* at Berlin, Brantford, Brockville, Collingwood, Cornwall, Drayton, Fort William, Galt, Goderich, Guelph, Hamilton, Ingersoll, Kingston, London, Oakville, Oshawa, Ottawa, Owen Sound, Paris, Pembroke, Peterborough, Port Arthur, Port Credit, Renfrew, St. Thomas, Stratford, Smith's Falls, Toronto, Windsor, Woodstock.

LIFE ASSURANCE IN CANADA.

The business of life assurance in Canada during the year, 1914, was conducted by 45 active companies—27 Canadian, 7 British, 10 American and 1 Colonial.

NEW ASSURANCES EFFECTED.

In the year under review, the new policies effected amounted to $217,006,516, a decrease from those taken out in the preceding year of $14,602,030. The respective amounts effected in each of the three classes of companies were:

Canadian Companies, $125,505,324, or 58% of the whole
British and Colonial Companies......... 9,294,590, " 4% " "
United States Co.'s... 82,206,602, " 38% " "

It will be observed that the business of the Canadian companies exceeded that of the British and United States together by $34,004,132.

TOTAL ASSURANCE IN FORCE.

The aggregate of life assurance in force December 31st, 1914, amounted to $1,242,160,478, an increase over that of the previous year of no less than $73,570,451. The distribution is shown as follows:

Companies.	Amount in Force.	Increase.
	$	$
Canadian................	794,520,423	43,882,521
British and Colonial.....	60,770,658	2,593,863
United States............	386,869,397	27,094,067
Total.......	$1,242,160,478	$73,570,451

The progress of the business, from the standpoint of the aggregate volume of life assurance carried by the several classes of companies, is evidenced when a comparison is instituted with the figures applicable at the close of the three previous decades:

AGGREGATE LIFE ASSURANCE IN FORCE AT CLOSE OF

Year.	Canadian Companies.	United States Companies.	British Companies.	Total.
	$	$	$	$
1880	37,838,518	33,643,745	19,789,863	91,272,126
1890	135,218,990	81,599,847	31,613,730	248,424,567
1900	267,151,086	124,433,416	39,485,344	431,069,846
1914	794,520,423	386,869,397	60,770,658	1,242,160,478

From $91,000,000 in 1880 to $1,242,000,000 in 1914, represents the large increase of over 1,261% in thirty-four years.

DEATH RATE.

The death rate in the several classes of companies was determined approximately by a comparison of the mean number of policies in force with the number of policies which became claims by death. The death rate thus ascertained for 1914 was 8·583 per 1,000, a rate lower than that experienced in any one of the preceding four years. The following table gives the rate for each of the years 1910-11-12-13-14:

—	1914.	1913.	1912.	1911.	1910.
Active Companies (ordinary)	7·527	7·341	7·980	7·860	7·830
Active Companies (industrial)	8·870	9·286	10·001	10·897	12·561
Assessment and Fraternal Societies	10·923	9·644	9·873	9·631	8·904
Non-active and retired companies...	30·774	36·342	35·498	30·839	39·216
All Companies....	8·583	8·692	9·337	9·730	10·419

BENEFITS TO POLICYHOLDERS.

During 1914 the amount disbursed on behalf of policyholders by way of death claims, endowments, dividends, was greater than in the previous year, the whole aggregating $28,207,980·78. The details are as follows:

For Death Claims..............	$11,438,227·55
For Matured Endowments......	5,310,151·74
For Annuities....................	1,333,897·69
For Cash Surrender Values.....	6,371,003·78
For Dividends and Profits......	3,754,700·02
	$28,207,980·78

ASSETS, LIABILITIES, NEW ASSURANCES, CANADIAN COMPANIES.

In determining the relative merits of life assurance companies, a number of factors must be considered. The expense rate, interest rate, rate of mortality experienced, class of investments, character of the men who compose the directorate, and the officers should be considered, etc. Because a company's assets, new assurances, or total assurances in force may run into large figures, these in themselves would not necessarily determine the superiority of the company. As a matter of reference, however, the following items are given for Canadian companies for the year ending December 31st, 1914:

Law Society of Ontario.

The Law Society was first established in 1797, by the Act 37, Geo. III., c. 13, which enabled the then practitioners of the law to form themselves into a society, and make rules for its government. By the Act of 1822, 2 Geo. IV., c. 5, "the Treasurers and Benchers of the Law Society" were formally incorporated; and under these and other statutes the Society has continued to be governed by a Board of Benchers, in the same manner as the various Law Societies of England. Under c. 157 (1914), the Benchers are elected by the Bar, writs *ex-officio* members, consisting of the Minister of Justice, the Solicitor-General of the Dominion, and all members of the Bar of Ontario who have at any time held the office of Minister of Justice or Solicitor-General of the Dominion or of Ontario, or the Attorney-General of Ontario, and every person who has held this office. Every person, treasurer of this Society for seven consecutive years, every person who has been elected for four quinquennial elections, every retired Judge of the Supreme Court of Canada or of the Exchequer Court of Canada who was a member of the Bar of Ontario, and any retired Judge of the Supreme Court for Ontario; the *elected*, thirty in number, being chosen by ballot, for a term of five years, by the members of the Bar, in manner prescribed by the Act. Vacancies during the term are filled by the remaining Benchers. On the first day of Easter Term, annually, the Benchers appoint one of their body to be Treasurer, who is also President of the Society. The Benchers sit in Convocation every term for the call of Barristers, the admission of Solicitors to Practice, and of Students to enter the Society. Osgoode Hall, appropriately named after the first Chief Justice, is the Ontario "Inn of Court," or headquarters of the Society, in which is provided accommodation for the Supreme Court of Ontario; with a valuable and extensive library.

THE ROYAL MILITARY COLLEGE

THERE are few national institutions of more value and interest to the country than the Royal Military College of Canada. Notwithstanding this, its object and the work it is accomplishing are not sufficiently understood by the general public.

The College is a Government institution, designed primarily for the purpose of giving instruction in all branches of military science to cadets and officers of the Canadian Militia. In fact, it corresponds to Woolwich and Sandhurst.

The Commandant and military instructors are all officers on the active list of the Imperial army, lent for the purpose, and there is in addition a complete staff of professors for the civil subjects which form such an important part of the College course. Medical attendance is also provided.

Whilst the College is organized on a strictly military basis, the cadets receive a practical and scientific training in subjects essential to a sound modern education.

The course includes a thorough grounding in Mathematics, Civil Engineering, Surveying, Physics, Chemistry, French and English.

The strict discipline maintained at the College is one of the most valuable features of the course, and, in addition, the constant practice of gymnastics, drills and outdoor exercises of all kinds, ensures health and excellent physical condition.

Commissions in all branches of the Imperial service and Canadian Permanent Force are offered annually.

The diploma of graduation is considered by the authorities conducting the examination for Dominion Land Surveyor to be equivalent to a university degree, and by the Regulations of the Law Society of Ontario it obtains the same exemptions as a B.A. degree.

The length of the course is three years, in three terms of 9½ months each.

The total cost of the course, including board, uniform, instructional material, and all extras, is about $800.

The annual competitive examination for admission to the College takes place in May of each year, at the headquarters of the several military divisional areas and districts.

For full particulars regarding this examination and for any other information, application should be made to the Secretary of the Militia Council, Ottawa, Ont., or to the Commandant, Royal Military College, Kingston, Ont.
